

Family Adoption Programme

MBBS and BDS students are posted in the department for Family Adoption Program. Through this program a cluster of students are allotted a family. The students study the various aspects of health and disease influencing factors in the family. They follow the family on a yearly basis from 1st year to internship period. This develops a trustworthy and long - lasting relationship with the families which will facilitate health seeking behaviour and promote health and prevent disease. The students are trained in developing communication and social skills. Total 525 families adopted in 6 villages.
