Report on the Disaster Victim Identification workshop held on 11.09.2017, Bengaluru

Dr.Vina Vaswani, Professor and Head and Dr.Leena Pramod, Assistant Professor Cum Curator attended the 15th National Conference of the Indian Association of Forensic Odontology held from 9th September to 11th September 2017 at Bengaluru, Karnataka. Dr. Vina Vaswani, Dr. Leena Pramod and Ms. Henriette Louise Stratmann from Netherlands were the resource person for "Disaster Victim Identification" Post Conference workshop on 11th September 2017. This workshop was held in B.R Ambedkar Dental College Ground. The number of participants in DVI workshop was 29. On 10th September 2017 the place was reassessed and spots for DVI marked by the resource persons. On 11th, three teams were made and the team leaders were given instructions regarding the disaster. The Team leaders in turn gave the instructions to their members and assigned each of them a role in the team. The member from each team visited the store area set up in one corner of the site to collect items needed for the DVI process. Their overall activity was supervised by the resource persons. Observation was recorded how the team members dealt with the media and family members of the victim. The 3 team leaders gave the chain of custody to the 3 resource persons at the end of workshop.

PGDFAO 2017 – Module I
Report on Disaster Victim Identification

The First module of Post Graduate Diploma in Forensic Anthropology began from 20 March 2017 to 25 March 2017 and was attended by 15 candidates enrolled for the course including one candidate who had missed last year (Dr Frank Antony Britto, PGDFAO 2016 Batch). One of the candidates (Dr Mithun Kulambi) was absent and will be attending the module with the next batch (PGDFAO 2018). The resource persons for First module were Dr. Luis Fondebrider, President Of Equipo Argentino de Antropologia (EAAF), Dr. Douglas H. Ubelaker, Curator, Smithsonian Institution, Washington DC, Dr. Vina Vaswani & Mr. Rajesh Karkera (In House Faculty).

During the session (20-25 March) various topics related to Disasters Victim Identification which included the crime scene: surface, indoors/outdoors, Overview of required field equipment, Search, survey, planning, excavating and recovering badly decomposed bodies and/or skeletons, Documentation on site, Handling of skeletal remains- from Field to Lab.

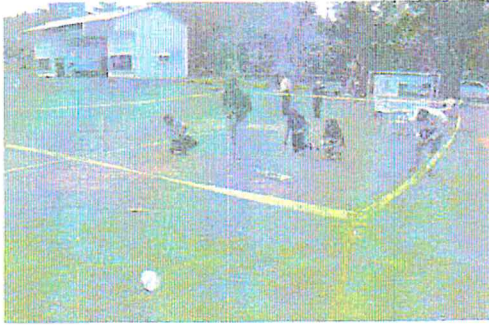

On 22 March 2017, the candidates were given training on Disaster Victim Identification (DVI). A plane crash scenario was created in the soccer ground of Yenepoya University. The candidates were given necessary instruction by Dr. Luis and were divided into 3 groups of 5 candidates each. Dr. Frank Antony Britto from PGDFAO 2016 batch was the 15th candidate as last year he was unable to attend. A team of 5 member consisting of Dr. Luis, Dr. Vina, Course Coordinator Dr. Leena, Technician Ms. Bhavani, SDA Shamina and attenders Mr. Kiran & Sachin went in advance to set the disaster site under the guidance of Dr. Luis Fondebrider at 9 a.m.

The session started at 9.30 a.m. and ended around 2 p.m. Mr. Narendra Babu, Deputy Director of Factories, Division -1, Mangalore & Mr. Girish P, Senior superintendent from Airport Authorities were the invited observer for the DVI.

Post Graduate Diploma in Forensic Anthropology Course

Pre DVI Feedback Analysis Form

22.03.2017

Module: I

Number of Participants: 15

- 1) Do you have any experience with disaster management?
Yes-1 No- 14
- 2) Have you received any training in disaster management?
Yes- 0 No- 15
- 3) If so when and how long was the training?
Yes-0 No- 15
- 4) What is the type of disaster you are likely to encounter in your professional practice?
 - Mass disaster
 - Bomb attack
 - accidents cases,
 - terrorist attacks
 - building collapse
 - Natural disaster, Air crashes
- 5) Are you aware of DVI?
Yes- 15 No- 0
- 6) According to you how many days should the DVI training be?
 - Minimum 1 month, Maximum 6 month
 - Five to six days
 - Two weeks
 - One week
 - Two to four weeks
 - Three to four days
 - One month
 - Not sure
- 7) Any comments regarding the training you would you like to give?
 - Increase duration of programme.
 - Job/ projects on contract basis on Forensic Anthropology for PGDFAO candidates
 - Online test on twice a month
 - Uploading PPT in the forum about solved cases
 - To get thorough knowledge of DVI
 - Hands on courses were beneficial, pictorial PPT were helpful
 - Time period of training is less
 - Need a pre demo of DVI
 - Video of previous DVI to be shown
 - DVI session needed in every module, Mock drill at disaster site

Post Graduate Diploma in Forensic Anthropology Course
Post DVI Feedback Analysis Form

22.03.2017

Module: I

Number of Participants: 15

Sl. No	Topic	Score	Rating
1.	The available material (bones) for anthropology training in the practical hall was sufficient to achieve the objectives	4.13	Agree
2.	The hands-on experience of the disaster victim identification (DVI) session was valuable.	4.87	Strongly Agree
3.	The venue chosen for the DVI was perfect	4.20	Agree
4.	The simulation arrangement for the DVI was excellent	4.53	Strongly Agree
5.	The time allotted for the DVI sessions were just right.	4.27	Agree
6.	The kits given for the DVI session were adequate.	4.47	Agree
7.	Refreshments were provided at the Disaster site	4.40	Agree
8.	The arrangements for the food were done well	4.33	Agree
9.	According to you how many days should the DVI training be?	3.40	1 week
10.	The time allotments for the post DVI sessions (Discussion & PPT preparation) were adequate	4.20	Agree

11. Anything you liked in course please mention.

- Liked today's outdoor DVI exercise

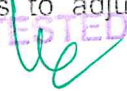

ATTESTED

Dr. Jagadhara Somayaji K S

Yenepoya (Deemed to be University)
University Road, Deralakatte
Mangalore 575 018, Karnataka.

- The simulation of scene of disaster was good. Practical approaches in disaster scene investigations were very helpful like noting the exact site, grid system.
- Hands on training was the best. We get to do practical which helps to realize what mistakes we may have made before we handle an actual disaster scene
- I liked the way DVI was conducted, hands on training, guest lecture by Prof. Dr. Luis and Prof. Douglas, Basic osteology by Douglas, difficulties in exhumation and in Disaster by Dr. Luis was excellent. Practical aspect of exhumations and DVI.
- Simulation session was wonderful and. A good experience too.
We were anticipating of digging out things , Apart from that it was well organized. Hats off to the entire team.
- DVI hands on was a new experience.
- Today's program was good.
- Everything I liked and was quite beneficial except for bones in osteology section
- First Time experience. Just amazing because it was a simulated scene for investigation.
- Excellent team work ...Thanks madam and team
- The time is little less
- Teamwork, professional approach.
- Simulation session was valuable which gave near to real scenario experience.
- Planning and management of the course was excellent
- Good teaching

12. Any improvement to suggest

- The models which were kept for identification should be more realistic like there were no injuries over bodies of victims of plane crash. Sketching, drawing and making reports of the crime scene should be taught in more details.
- DVI at different venues will definitely help the candidates to adjust with the environment and work in coordination.

ATTESTED

Date: 22 March 2017

- It would be nice if you show a video of the real life disaster scene evaluation. Initially there was little bit confusions among the team members.
- A lesson on statistics and main indices, used in forensic research work, will be a blessing from you
- More number of days should be allotted for field work
- It will be better if DVI field improves
- The site of DVI should change
- Can the field work be done in the early morning or late evening hours when the weather is pleasant? Also adhesive tapes were not provided for each team.
- Today was perfect!!
- Can we participate in the mock drill's conducted by various agencies like fire and emergency services or airports authority of India
- Maintain this standard.

Dear Friends & Colleagues,

Welcome to Namma Bengaluru!

We are delighted to WELCOME you all to the **15th National conference of The Indian Association of Forensic Odontology** in Bengaluru, Karnataka from **9th - 11th September 2017**. Being India's premier conference in Forensic Odontology, we, the Organizing committee are striving hard to ensure that this year's conference meets the high standards that IAFO's National Conferences are known for. Successful Science relies on effective collaborations and communication between researchers working across disciplines. At this year's conference, we aim to bring the country's most eminent researchers and clinicians working on a range of interesting topics in Forensic Odontology.

This edition of the IAFO's National Conference will be held in the beautiful Southern Indian city of Bengaluru. The venue of the conference, the wonderful **Chancery Pavilion**, puts you in the heart of Bengaluru giving you easy access to many of the city's attractions.

In addition to providing you with a stimulating scientific conference at the 15th national conference of IAFO, we will go the extra mile in ensuring that you are provided with the highest standards of hospitality.

We eagerly look forward to seeing you all in Namma Bengaluru.

Organizing Team,
Namma Bengaluru

31.01.2017

The Principal
Yenepoya Medical College

Sub: Permission for conducting Module I- DVI from March 20th to March 25th and
Logistic support for 3 modules of PGDFAO Course.

Ref: Letter dated 11.01.2017 from the HoD, Forensic Medicine

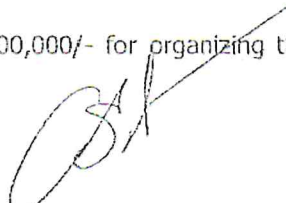

Permission is accorded for the proposal of HoD, Forensic Medicine to conduct first module of PGDFAO batch 2017 to be held from 20th March to 25th March 2017 and also to conduct air crash disaster training program for the PGDFAO candidates on 22nd March and 23rd March 2017 from 9a.m to 4p.m .

The Resource Person for the course will be Dr. Luis Fondebrider and Dr. Mercedes Salado Puerto from Argentina.

The following logistic support is hereby sanctioned to organize the modules.

- 1) a) 20th March 2017 pickup and drop the Resource Persons from airport to Hotel.
b) 20th March to 25th March 2017 Local transport for the Resource Persons for conducting the course (from hotel to Department of Forensic Medicine)
c) 25th March 2017 Hotel to airport.
- 2) Remuneration for Resource Persons from EAAF Dr Luis Fondebrider & Dr. Mercedes Salado Puerto
- 3) Photographer to be provided on these days when requested. During the course, Breakfast, lunch and evening high tea will be provided to Resource persons, participants and supporting staffs.
- 4) Remuneration for in house faculty to be provided as per the sessions conducted.
- 5) Accommodation for External candidates of PGDFAO in Meridiyen / Gardenia during the module.
- 6) Special Casual leave for 13 days for Internal PGDFAO candidates of YMC & YDC.
- 7) Gift Pack for Resource persons during the modules
- 8) Imprest (Advance) amount of Rs. 10,000/- towards DVI arrangements.

Sanction is accorded for the University financial assistance of Rs.1,00,000/- for organizing the modules subject to production of bills & vouchers.

Front / Back

INTRODUCTION

Very often a forensic expert is called upon to establish identity where the body is mutilated or decomposed beyond recognition or available as fragmentary remains. Forensic anthropology is the application of the science of anthropology in the medico-legal setting. In tandem with the development of forensic pathology, forensic anthropology has undergone a sea change and thus there is a need for forensic experts in India to refresh their knowledge and training. The Department of Forensic Medicine & Toxicology, Yenepoya Medical College, Yenepoya University, Mangalore now offers a unique, innovative postgraduate diploma in forensic anthropology, which ensures that participants get updated knowledge and an enriching hands-on experience. This one-year hybrid course, designed especially for the practicing forensic expert, aims to fill the gap in the armamentarium of the forensic specialist, with nationally and internationally renowned forensic anthropologists as resource persons.

OBJECTIVES

- Successful participants will be able to
- Describe the roles and responsibilities of a forensic anthropologist within the medico-legal system
 - Define and describe the common scenarios in which human skeletal remains or body parts are found
 - Describe the process of exhumation
 - Establish identity in mass disasters
 - Effectively use the methods of collection of evidence for identification
 - Identify the relevant legislations from the Indian Penal Code and Criminal Procedure Code that defines criteria for admissibility of evidence

COURSE DURATION

One year (three modules); blended learning

SUBJECT CONTENT

The topics covered will be relevant, the teaching will be interactive and assignments will be given on regular basis. The following topics will be covered in the three modules

- Crime scene mapping and investigation
- Introduction to taphonomy and post mortem interval
- Sex determination from bones and skeletal remains
- Age estimation from long bones
- Forensic odontology
- Fragmented and commingled remains
- Investigating Mass Disaster
- Stature

ELIGIBILITY

MBBS or BDS graduates; postgraduate students of MD or MDS, B Sc or M Sc
Criminology; MSc Forensic Sciences; BSc/MSc Nursing; MSc Anatomy, LLB or LLM

FACULTY

Luis Fondebrider is a world renowned forensic anthropologist and the current President (and co-founder) of Argentine Forensic Anthropology Team (EAAF), which was created in 1984 with offices in Buenos Aires, New York, Mexico and South Africa. The EAAF through the application of forensic anthropology, archeology and genetics, aims to assist medico-legal investigations. He is member of the Forensic International Team leading the manual on Genetics and Human Rights, under the aegis of the government of Argentina and the International Committee of the Red Cross. He has been an expert witness and forensic advisor to more than thirty countries, across the globe.

Dr. Ashith Acharya completed his BDS from SDM College of Dental Sciences & Hospital, Dharwad, 1999, and undertook a postgraduate degree in Forensic Odontology in the University of Adelaide, Australia, in December 2001.

He is currently working as Associate Professor and Head of Forensic Odontology at SDM College of Dental Sciences & Hospital and is a government recognized Forensic Odontologist. The Forensic Odontology Department at SDM under his expert leadership has been instrumental in helping solve many high profile criminal cases in the country.

PGDFAO 2017 – Module I- Report

In Collaboration with Equipo Argentino de antropologia forense (EAAF) Argentina.

The First module of **Post Graduate Diploma in Forensic Anthropology** began from **20 March 2017 to 25 March 2017** and was attended by 15 candidates enrolled for the course including one candidate who had missed last year (Dr Frank Antony Britto, PGDFAO 2016 Batch). One of the candidates (Dr Mithun Kulambi) was absent and will be attending the module with the next batch (**PGDFAO 2018**). The resource persons for First module were **Dr. Luis Fondebrider**, President Of Equipo Argentino de Antropologia (EAAF), **Dr. Douglas H. Ubelaker**, Curator, Smithsonian Institution, Washington DC, **Dr. Vina Vaswani & Mr. Rajesh Karkera** (In House Faculty).

During the session (**20-25 March**) various topics related to Disasters Victim Identification which included the crime scene: surface, indoors/outdoors, Overview of required field equipment, Search, survey, planning, excavating and recovering badly decomposed bodies and/or skeletons, Documentation on site, Handling of skeletal remains- from Field to Lab.

Setting up an anthropological laboratory: SOPs, Protocols, Forms, Preparation of remains: decomposed, cleaning process, codification, Introduction to Osteology, Analysis of human skeletal remains, Introduction to bone pathology: concept, role of forensic anthropology and forensic pathologist, Pathological changes in the bone: classification, Peri mortem trauma in Bone were discussed.

The session included theory and practical sessions for the candidates.

Day 1 (20.3.17)

The candidates of PGDFAO were welcomed to the Department of Forensic Medicine & Toxicology by the Course Coordinator Dr. K. Leena Pramod and supporting staff.

The candidate Kit was distributed to them which was followed by a brief introduction to the course by Dr. K. Leena Pramod.

Dr. Mangadhara Somayaji K S

Day 3- 22.3.17

On **22 March 2017**, the candidates were given **training on Disaster Victim Identification (DVI)**. A plane crash scenario was created in the soccer ground of Yenepoya University. The candidates were given necessary instruction by Dr. Luis and were divided into 3 groups of 5 candidates each. Dr. Frank Antony Britto from PGDFAO 2016 batch was the 15th candidate as last year he was unable to attend. A team of 5 member consisting of Dr. Luis, Dr. Vina, Course Coordinator Dr. Leena, Technician Ms. Bhavani, SDA Shamina and attenders Mr. Kiran & Sachin went in advance to set the disaster site under the guidance of Dr. Luis Fondebrider at 9 a.m.

The session started at 9.30 a.m. and ended around 2 p.m. Mr. Narendra Babu, Deputy Director of Factories, Division -1, Mangalore & Mr. Girish P, Senior superintendent from Airport Authorities were the invited observer for the DVI.

Yenepoya Medical College, Yenepoya (deemed to be University), Deralakatte, Mangalore 575018 India

Forensic Geology is in a very nascent stage in India compared to the other developed nations. At a global level, the International Union of Geological Sciences (IUGS), developed Initiative on Forensic Geology (IFG) and thus was born this initiative at UNESCO headquarter at Paris in 2011 with the vision to serve the applied aspects geological techniques in Forensics. The IUGS-IFG has a worldwide network and having country officers who take care of the aims and objective of IUGS-IFG. Mr. Biplob Chatterjee, a well-known Geologist is the Indian Officer of IUGS-IFG.

On 15th March, Mr Biplob made a presentation to the participants of PGDFAO and faculty members. Participant's were enriched with the application of Geological tools in Forensic Identifications. Few real-life cases were presented by audio-visual. Forty minutes interactive discussion happened through which the participants ask their curiosities toward this emerging area. Works of literature on Forensic Geology were shared with the participants by the resource person

MEMORANDUM OF UNDERSTANDING

BETWEEN

YENEPOYA UNIVERSITY, MANGALORE, INDIA

AND

EQUIPO ARGENTINO DE ANTROPOLOGIA FORENSE, ARGENTINA

YENEPOYA UNIVERSITY, MANGALORE, INDIA represented by its **Registrar, Dr. Raghuv eer C.V.** and Equipo Argentino De Antropologia Forense, Argentina represented by its **President, Dr Luis Fondebrider**, hereinafter referred to as "the parties", considering that academic cooperation is fundamental to the development of both Institutions, enter into an agreement of cooperation to establish programs of exchange and collaboration in areas of mutual interest and benefit to both institutions. Based on principles of equity and reciprocity, this agreement will serve as a general framework for cooperation between the two institutions and is intended to facilitate discussions for more specific programs of collaboration. In particular, the two institutions

AGREE TO THE FOLLOWING

ARTICLE 1. GENERAL AREAS OF COOPERATION.

Collaboration will be developed in the following areas:

1. Exchange of faculty and research staff, particularly in the domain of Forensic Anthropology
2. Establishment of programs that will enable interested and qualified researchers and university personnel to pursue either short-term or extended programs of study in each other's labs up to two weeks;
3. Assistance of visits by authorized officials from each of the parties for the purpose of studying the other's educational system to develop mechanisms for, and expand areas of, cooperation;
4. Identification of other areas of possible interest and collaboration; and,
5. Extending collaborations for emerging areas as Police training, judges training and International humanitarian law.
6. Exchange of Expertise in field of bioethics and research ethics so as to do capacity buildings.

ARTICLE 2. FINANCIAL ISSUES.

The scope of activities under this agreement shall be determined by funds regularly available at both institutions for the types of collaboration undertaken and by such other financial assistance as may be obtained by either institution from external sources.

ARTICLE 3. DURATION OF THE AGREEMENT.

Upon approval by each institution, this agreement will remain in force until terminated by either institution. An evaluation of this agreement will take place three years after the date of signature. Either institution may terminate this agreement by giving the other at least six months advance notice of its intention to terminate. Termination shall be without penalty.

ARTICLE 4. SUPERVISION OF THE AGREEMENT.

A designated person at each institution shall oversee and facilitate implementation of this agreement in collaboration with other appropriate staff at the respective institutions.

ARTICLE 5. INTELLECTUAL PROPERTY.

Each Institution is the owner of certain intellectual property in respect of the creations of the students and/or professors.
