## Preface

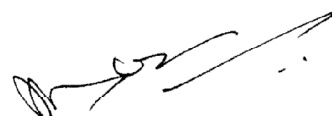

Yenepoya University, the first Deemed University (recognized under Section 3(A) of the UGC Act 1956) in Dakshina Kannada district was established in 2009. The university Consists of four constituent colleges under its ambit namely Yenepoya Medical College, Yenepoya Dental College, Yenepoya Nursing College and Yenepoya Physiotherapy College. The institutions ensure high standards of academic performance and are rendering quality health care services.

The aims of nursing profession is to render quality healthcare to all needy people and nursing education aims at creating a new generation of nurses who are competent to meet the emerging nursing challenges in the hospital environment and community environment through quality education. There are a number of educational paths to become a professional nurse, which vary greatly worldwide, but all involve extensive study of nursing theory and practice as well as training in clinical skills. The minimum standard requirements for entry in to nursing practice is determined by the nursing council of India.

The Indian Nursing Council is a National regulatory body that maintains uniform standards in Nursing Education and prescribes the syllabus and regulations for various nursing programs in India. Considering the recommendations of Indian Nursing Council, the syllabus for Post Basic.B.Sc Nursing have been revised at par with the current developments and trends in the nursing profession after proper discussions at the levels of Board of Studies, Faculty and Academic Council.

The students of Yenepoya University are also privileged to undergo the core module on environmental studies as per the UGC recommendation in addition to other Add on courses.

I hope the revamping of syllabus will help the students to update and expand their knowledge to a great extent. The academic transaction is now going to be shifted from conventional methods to e-learning from 2015 onwards. I congratulate and appreciate the efforts put by the faculty of nursing in the revision of curriculum.

**Dr. M. Vijaya Kumar**  
*Vice Chancellor*  
*Yenepoya University*

---

## **Vision and Mission**

### **Vision**

To provide access to quality higher education, ensuring equity, to create a vibrant knowledge capital and to create inspiring leaders of tomorrow who can take this country to the forefront of the developed nations.

### **Mission**

- To achieve academic excellence and global competencies among students.
- To create an environment for the generation of new knowledge through meaningful research, adopting latest methods of pedagogy and incorporating modern principles of academics integrated with highest ethical standards.
- To extend the knowledge acquired and new knowledge

---

# Philosophy

(Adapted from Indian Nursing Council)

**INC believes that,**

Health is a state of well-being that enables a person to lead a psychologically, socially and economically productive life. Health is not a privilege but a right of all the people. Individuals, families and communities have a responsibility towards maintaining their health.

Nursing contributes to the health services in a vital and significant way in the health care delivery system. It recognizes national health goals and is committed to participate in the implementation of national health policies and programmes. It aims at identifying health needs of the people, planning and providing quality care in collaboration with other health professionals and community groups.

Scope of nursing practice encompasses provision of promotive, preventive, curative and rehabilitative aspects of care to people across their life span in wide variety of health care settings. Practice of nursing is based upon application of basic concepts and principles derived from the physical, biological, behavioral science.

Nursing is based on values of caring, and aims to help individuals to attain independence in self-care. It necessitates development of compassion and understanding of human behavioral among its practitioners to provide care with respect and dignity and protect the rights of individuals & groups.

Undergraduate nursing program at the post basic level is a broad based education within an academic framework, which builds upon the skills. And competencies acquired at the Diploma level. It is specifically directed to the upgrading of critical thinking skills, Competencies & standards required for practice of professional nursing and midwifery as envisaged in National Health Policy 2002.

The teachers have the responsibility to be role models and create learning environment that enables students to acquire inquiry driven, self directed learning and foster an attitude of lifelong learning.

Under graduate nursing education program at the post basic level prepares its graduates to become exemplary citizen by adhering to code of ethics and professional conduct at all times in fulfilling personal, Social and professional obligations so as to respond to national aspirations.

---

## Aims

Post Basic B.Sc degree in nursing is a broad based education aimed to build upon the skills and competencies acquired at the diploma in nursing level. It is specifically directed to the upgrading of critical thinking skills, competencies and standards required for practice of professional nursing and midwifery as envisaged in National Health Policy. The course is intended to enable the graduates,

- Assume responsibilities as professional, competent nurses and midwives at basic level in providing promotive, preventive, curative and rehabilitative services.
- Make independent decisions in nursing situations, protect the right of and facilitate individuals and groups in pursuit of health, function in the hospital, community nursing services, and conduct research studies in the areas of nursing practice. They are also expected to assume the role of teacher, supervisor, and manager in a clinical/public health settings.

## Objectives

On completion of Post-Basic B.Sc. Nursing degree course the graduates will be able to,

- assess health status, identify nursing needs, plan, implement and evaluate nursing care for patients/clients that contribute to health of individuals, families and communities.
- demonstrate competency in techniques of nursing based on concepts and principles from selected areas of nursing, physical, biological and behavioural sciences.
- participate as members of health team in the promotive, preventive, curative and restorative health care delivery system of the country.
- demonstrate skills in communication and interpersonal relationship.
- demonstrate leadership qualities and decision – making abilities in various situations.
- demonstrate skills in teaching to individuals and groups in clinical/community health settings.
- demonstrate managerial skills in various health care settings.
- practice ethical values in their personal and professional life.
- participate in research activities and utilize research findings in improving nursing practice.
- recognize the need for continued learning for their personal and professional development.

Sub: Amendment to revision of P.B.B.Sc. (Nursing) syllabus

Ref: Resolution of the Academic Council at its 33<sup>rd</sup> meeting held on 26.10.2018, vide Agenda – 9

\*\*\*\*\*

The Academic Council at its 33<sup>rd</sup> meeting held on 26.10.2018 and subsequently the 44<sup>th</sup> Board of Management have approved the proposal of the combined Board of Studies as recommended by the Faculty of Nursing to amend the P.B.B.Sc. (Nursing). The amendment as approved is hereby noted as follows:-

**Subject: Nursing Foundation**

**Placement: I year P.B.B.Sc (N)**

Unit	HOURS		Course Content	Addition/modification	Justification
	Prescribed	Proposed			
III	6	6	<b>Professional Nursing care concepts and practices</b>	<b>Add theories</b> <ul style="list-style-type: none"> <li>Florence nightingale theory</li> <li>Orem's theory</li> <li>General system theory</li> </ul>	To make it specific
IV	10	10	<b>The Nursing process</b>	<b>Add</b> Nursing diagnosis <ul style="list-style-type: none"> <li>Types and significance</li> </ul>	To make it specific

**Subject: Biochemistry**

**Placement: I year P.B.B.Sc (N)**

Unit	Prescribed hours	Proposed hours	Course content	Addition / modification	Justification
<b>I</b>	<b>3</b>	<b>2</b>	<b>Introduction</b>	Reduction of 1 teaching hour	2 hours are adequate for the topic
<b>III</b>	<b>5</b>	<b>4</b>	<b>Enzymes</b> <ul style="list-style-type: none"> <li>Mechanism of action</li> </ul>	<ul style="list-style-type: none"> <li><b>Add</b> definition</li> <li><b>Outline</b> of Mechanism of action</li> </ul>	<ul style="list-style-type: none"> <li>To add clarity</li> <li>It is not essential from nurses perspective</li> </ul>

			<ul style="list-style-type: none"> <li>• Factors affecting enzymes activity</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Rephrase</b> as – List of factors affecting enzyme activities, <math>K_m</math> value</li> <li>• <b>Add</b> Isoenzymes</li> <li>• <b>Add</b> types of enzyme inhibitions with examples</li> <li>• <b>Reduction</b> of 1 hour from Unit III Enzymes</li> </ul>	<ul style="list-style-type: none"> <li>• To add clarity</li> </ul>
IV	6	6	<p><b>Carbohydrates</b></p> <ul style="list-style-type: none"> <li>• Glycolysis and TCA cycle</li> <li>• Fate of glucose in the body.</li> <li>• Storage of glucose in the body</li> <li>• Glycogenesis</li> <li>• Glycogenolysis and gluconeogenesis,</li> <li>• Blood glucose and its regulation.</li> <li>• Glucose tolerance test, hyperglycemia, hypoglycemia,</li> <li>• Glycaemia, Diabetes mellitus</li> </ul>	<p><b>Carbohydrates</b></p> <ul style="list-style-type: none"> <li>• <b>Add</b> definition, classification and functions of carbohydrates</li> <li>• <b>Rephrase</b> sub topics as: Metabolic pathways for glucose- <ul style="list-style-type: none"> <li>a) Glycolysis: Definition, site, steps types, significance, only net gain of ATPs</li> <li>b) TCA cycle: Definition, site, steps, significance and only net gain of ATPs.</li> <li>c) Glycogen metabolism: Definition, site, significance of glycogenesis and Glycogenolysis (without details of the pathway)</li> <li>d) Gluconeogenesis: Definition, site and significance (without the details of the pathway)</li> </ul> </li> <li>• <b>Rephrase</b> Diabetes mellitus as</li> <li>• Diabetes mellitus- definition, types, biochemical alterations and biochemical tests (plasma glucose, HbA1c, GTT, urine dipstick)</li> </ul>	<ul style="list-style-type: none"> <li>• To add clarity</li> <li>• To add clarity</li> <li>• It is in accordance with nurses perspective</li> <li>• To add clarity</li> </ul>
V	6	6	<p><b>Proteins</b></p> <ul style="list-style-type: none"> <li>• Definition, classification, structure, properties and functions</li> <li>• Biologically important peptides</li> <li>• Protein: definition, classification</li> <li>• Catabolism of amino acids–urea Cycle</li> <li>• Plasma proteins</li> </ul>	<p><b>Proteins</b></p> <ul style="list-style-type: none"> <li>• <b>Rephrase</b> as- Definition, classification of proteins, essential amino acids, structural organization of proteins- definition and example for each level</li> <li>• <b>Outline</b> of Biologically important peptides</li> <li>• <b>Delete</b> Protein: definition, classification,</li> <li>• <b>Add</b>- Denaturation of proteins</li> <li>• <b>Rephrase</b> as- Urea cycle- definition, site, steps, significance, blood urea level</li> <li>• <b>Rephrase</b> as-Plasma proteins- examples and functions</li> </ul>	<ul style="list-style-type: none"> <li>• To add clarity</li> <li>• It is a repetition</li> <li>• It is required from nurses perspective</li> <li>• To add clarity</li> <li>• To add clarity</li> </ul>

			<ul style="list-style-type: none"> <li>Protein: Amino acids, hormones</li> <li>Essential amino acids. Biosynthesis of protein in the cells</li> <li>Role of nucleic acid in protein Synthesis</li> <li>Nitrogenous constituents of Urine, Blood, their origin- urea cycle, uric acid formation, gout, Plasma proteins and their functions</li> </ul>	<ul style="list-style-type: none"> <li><b>Deletion</b></li> <li><b>Rephrase as-</b> Protein biosynthesis (translation)- definition, site, inhibitors (without the details of the pathways)</li> <li><b>Delete</b> role of nucleic acid in protein synthesis</li> <li><b>Deletion</b></li> </ul>	<ul style="list-style-type: none"> <li>It is a repetition</li> <li>To add clarity</li> <li>It is a repetition as it is part of protein biosynthesis topic</li> <li>It can be included in the proposed new Unit-Clinical biochemistry: plasma proteins is a repetition</li> </ul>
VI	4	4	<b>Chemistry of Fat</b> <ul style="list-style-type: none"> <li>Definition, classification, properties, function</li> <li>Ketone body formation</li> <li>Biological importance of lipids And Their functions</li> <li>-Cholesterol and lipoprotein -Sources, occurrence and distribution -Blood level and metabolism</li> </ul>	<b>Lipids</b> <ul style="list-style-type: none"> <li><b>Rephrase as-</b> Definition, classification and functions</li> <li><b>Rephrase as-</b> Ketone bodies – names, significance, ketosis and keto acidosis (causes- starvation and diabetes)</li> <li><b>Rephrase as-</b> Cholesterol: Sources occurrences, distributions and functions, lipoproteins- types, importance of HDL and LDL</li> <li><b>Add</b> Fatty liver</li> </ul>	<ul style="list-style-type: none"> <li>To add clarity</li> <li>To add clarity</li> <li>It is required from nurses perspective</li> <li>It is required from nurses perspective</li> </ul>
VIII	-	2		<b>Addition of new Unit</b> <b>Clinical Biochemistry</b> <ul style="list-style-type: none"> <li>Pre examination process</li> <li>Routine parameters- Renal function tests, Liver function tests, Arterial blood gases, Lipid profile, cardiac markers and electrolytes</li> </ul>	<ul style="list-style-type: none"> <li>It is required from nurses perspective</li> </ul>

Subject: Biophysics

Placement: I year P.B.B.Sc (N)

Course Content	Addition/modification	Justification
<b>UNIT III</b> <b>Gravity</b>	<b>Add</b> Density	Must know
<b>UNIT IV</b> <b>Force, work, Energy: Their units of measurement.</b>	<b>Add</b>  Centrifugal and centripetal force  Types of lever and lever mechanism in human body	To make it more specific
<b>UNIT V</b>	<b>Add</b>	To make it more specific

<b>Heat</b>	Gas laws Calorimeter	and Exam point of view
<b>UNIT VII</b> <b>Pressures</b>	<b>Add</b> Central Venous Pressure	To make it more specific
<b>UNIT VIII</b> <b>Sound</b>	<b>Add</b> Mechanism of hearing	To make it more specific
<b>UNIT IX</b> <b>Electricity and Electromagnetism</b>	<b>Add</b> Electric charge, electric field, electric potential  Ohm's Law  Electric battery  Laws of electromagnetic induction	To make it more specific
<b>UNIT X</b> <b>Atomic Energy</b>	<b>Add</b> Biological effects of radiation	To make it more specific Exam point of view

**Subject: Microbiology**

**Placement: I year P.B.B.Sc (N)**

Unit	Theory	Practical	Course Content	Addition/modification	Justification
I	2	3	<b>Structure and classification of microbes.</b>		Redistribution of hours into theory and practical
II	4	4	<b>Immunity</b>	<b>Add</b> <ul style="list-style-type: none"> <li>• Antigen</li> <li>• Antibodies – IgG, IgM, IgA</li> <li>• Antigen-antibody reactions</li> <li>• Immunization schedule</li> </ul>	Desirable to know  Redistribution of hours into theory and practical
III	2	4	<b>Identification of micro-organisms</b>	<b>Add</b> <ul style="list-style-type: none"> <li>• Staining techniques, (Gram staining, Acid fast staining)</li> <li>• Hanging drop preparation</li> <li>• Culture media – (definition</li> </ul>	To be more clear and specific  Redistribute of hours into theory and practical

				& Examples )	
IV	3	2	<b>Growth and nutrition of microbes</b>		Redistribute of hours into theory and practical
V	5	5	<b>Destruction of micro-organisms</b>		Redistribution of hours into theory and practical
VI	2	2	<b>Disease producing micro-organisms</b>	<b>ADD</b> Gram-positive bacilli-C.diphtheriae, Cl.tetani, Cl.perfringens  Cocci-Staphylococci, Streptococci, Pneumococci	Specification of bacteria to be included
VII	2	2	<b>Pathogenic fungi</b>	Add Opportunistic infection-Candida	specific fungus mandatory to know redistribution of hours into theory and practical
VIII	3	2	<b>Parasites and vectors</b>	<b>Add</b> • Malaria  • Helminths-Ascariasis, tapeworm, hookworm-ancylostomiasis	To be more specific  Redistribution of hours into theory and practical
IX	3	2	<b>Viruses</b>	<b>Add</b> • Polio • Arbovirus • Dengue virus • Rabies • HIV • Hepatitis-HAV, HBV, HCV in brief	Desirable to know  Redistribution of hours in to theory and practical
X	2	2	<b>Micro-organism transmitted through food</b>		Redistribution of hours
XI	2	2	<b>Biomedical waste management</b> • Microbiology and biotechnology	<b>Add</b> Hospital acquired infections	added as it is mandatory to know

**Subject: Maternal Nursing**

**Placement: I year P.B.B.Sc (N)**

UNIT	Prescribed hours	Course content	Addition/Modification	Justification
<b>I</b>	<b>5</b>	<b>Introduction and historical review</b>	<b>Add</b> PCPNDT act	Its desirable to know

**Subject: Child Health Nursing****Placement: I year P.B.B.Sc (N)**

SL.NO	HOURS		Course Content	Addition/Modification	Justification
	Prescribed	Proposed			
Unit V	4	4	<b>Management of special child</b>	<b>Add</b> Welfare services for challenged children in India  Child guidance clinic	Student should know about the topic

**Subject: English****Placement: I year P.B.B.Sc (N)**

Course Content	Addition/Modification	Justification
<b>Unit-I</b> <b>Remedial study of grammar</b>	<b>ADD</b> <ul style="list-style-type: none"> <li>Review of grammar like Tenses, prepositions, Verbs, comparative and superlative adjectives, prepositions conjunctions and reported speech</li> </ul>	To make more specific

**Subject: Community Health Nursing****Placement: II year P.B.B.Sc (N)**

unit	Prescribed Hours	Course Content	Addition/Modification	justification
I	4	<b>Introduction</b>		
II	8	<b>Family health services</b>	<b>Add</b>  Bag technique  Family coping index	To make more specific about the core aspect of home visiting need to incorporate.  Must know
III	10	<b>Health services in India</b>	<b>Modify</b>  National health policy.[1983,2002.2017]  <b>Add</b>  Indian public health standards (IPHS)	Need to know recent amendments.  To make more clear
IV	4	<b>Health Education</b>	Unit heading is renamed as health Education/IEC	Heading made little broad in concept

V	16	<b>Role Of The Community Health Nurse</b> National health programs	Polio eradication, Pulse Polio Programme, National Vector Borne Disease Control Programme., National Leprosy eradication programme, Revised national tuberculosis control programme, National AIDS/HIV control programme, National Nutritional Programmes, National Mental Health Programme.	To be more specific .the following national health programmes need to cover under national health programmes
VI	10	<b>Epidemiology</b>	<b>Add</b> Levels of prevention	Must know
VII	8	<b>Bio-statistics and vital statistics</b>	<b>Add</b> Health monitoring through MIS	This topic need to incorporate with this unit

**Subject: Introduction to Nursing Education**

**Placement: II year P.B.B.Sc (N)**

SL.NO	HOURS		Course Content	Addition/Modification	Justification
	Prescribed	Proposed			
		T	P		
Unit 1	5	5	-	Introduction to education	Practical hours are distributed and mentioned 2Hours each shifted from unit VIII and unit-IX to unit II
Unit 2	6	10	30	Teaching learning process	
				Add Course plan Unit plan Rotation plans	
Unit 3	15	15	10	Methods of teaching	
Unit4	7	7	10	Educational media	
Unit 5	6	6	10	Method of assessment	
Unit 7	5	5		Management of school of nursing	
Unit 8	8	6	5	Guidance and counseling	
Unit 9	8	6	10	In-service education	
<b>Total</b>	<b>60</b>	<b>60</b>	<b>75</b>		

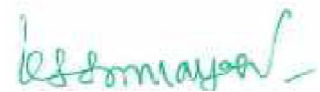

**Subject: Introduction to Nursing Research & Statistics**

**Placement: II year P.B.B.Sc (N)**

Unit	HOURS		Course Content	Addition/Modification	Justification
	Prescribed	Proposed	Descriptive statistics	Modify as	

7	8	10		<ul style="list-style-type: none"> <li>• Definition, uses of statistics</li> <li>• Scales of measurement</li> <li>• Frequency distribution and graphical presentation data</li> <li>• Inferential statistics - Chi square</li> </ul>	<p>To be more precise and organized Inferential statistics was not there</p> <p>Hours increased as lot to cover in this unit</p>
10	5	3	-	-	As limited portion to cover , 2 hours shifted to unit 7
			<p>PRACTICUM: Students will conduct research project individually in selected areas of nursing and submit report as a college examination subject. (Group studies include studying of existing health practices, improved practices of nursing (procedures), health records, patient records and survey of nursing literature.(EXISTING)</p>	<p>Students will conduct research project in small groups in selected areas of nursing and submit a report (group studies may include studying of existing health practices, improved practices of nursing (procedures), health records, patient record and survey of nursing literature) (PROPOSED)</p>	<p>There is no practical exam, project is conducted in small groups</p>

F.No.1-2 / 2019 - INC

Dated: 13 JUN 2019

**CIRCULAR**

**Sub: Climate Change, Air Pollution and Heat Wave and their Impact on Health- inclusion in  
B.Sc.(N) & Post Basic B.Sc (N) syllabus - Reg.**

Climate change and air pollution are emerging as one of the high threats to human health. Air pollution has also emerged as a critical risk factor leading to common non-communicable diseases (asthma, pneumonia etc). Secretary, Department of Health & Family Welfare, Ministry of Health & Family Welfare vide her letter D.O. no. 86/NCDC/CEOH&CCH/2019-20 dated 7<sup>th</sup> May, 2019 (Copy Enclosed) has drawn attention of INC for considering the revision in Nursing Education Curricula at both undergraduate & postgraduate level to ensure the inclusion of the following topics which are not adequately addressed at present in teaching and examinations:

- i. Climate Change and its impact on Health
- ii. Air Pollution and its impact on Health
- iii. Heat Wave and its impact on Health

Hence it is recommended to incorporate the above topic/areas in B.Sc (N) & Post Basic B.Sc (N) curricula under Community Health Nursing Subject. Accordingly it is requested that all college and universities may please take early action to implement the same so that these subjects are adequately covered in the curricula.

Yours faithfully,

(Rathish Nair)  
Secretary

# Regulations

## 1. Title of the course

The course is titled as Post Basic B.Sc in Nursing or P. B. B.Sc (N)

## 2. Eligibility

- Passed the Higher Secondary or Senior Secondary or Intermediate or 10+2 or an equivalent examination recognized by the university. Those who have done 10+1 in or before 1986 will be eligible for admission.
- Obtained a certificate in General Nursing and Midwifery and registered as R.N.R.M. with the State Nursing Registration Council.
- A male nurse, trained before the implementation of the new integrated course besides being registered as a nurse with State Nursing Registration Council, shall produce evidence of training approved by Indian Nursing Council for a similar duration in lieu of midwifery in any one of the following areas: O.T. Techniques, Ophthalmic Nursing, Leprosy Nursing, TB Nursing, Psychiatric Nursing, Neurological and Neuro surgical Nursing, Community Health Nursing, Cancer Nursing, Orthopedic Nursing.
- Student should be medically fit male or female.
- Simultaneous attendance in multiple courses is not permitted

## 3. Entrance/Selection test

Selection of candidates is based on marks scored in the entrance examination conducted by the university.

## 4. Annual intake

Students are admitted once a year. The annual intake for the course is as sanctioned by the Indian Nursing Council (INC).

## 5. Duration of Study

Duration of the course is two years

## 6. Commencement of the course

The college academic year commences in the month of August.

## 7. Medium of instruction

English is the medium of instruction for all the subjects of study and for examinations of the Post Basic B Sc Nursing Degree Course

## 8. The syllabus

The syllabus for the course is designed based on the requirements prescribed by Indian Nursing Council. Syllabus enrichment is done based on the recommendations of the Board of studies from time to time and subject to the approval of the Academic Council of the University.

## 9. Attendance

- a. A candidate must have a minimum 80% attendance in theory and practical, in each subject, for appearing for examinations, irrespective of the kind of absence she/he may have had.
- b. There shall be no condonation for any leave for any reason, including pregnancy, child birth, or medical conditions of any nature.

- 
- c. For the degree to be awarded, 100% attendance in each practical/clinics is mandatory.
  - d. A candidate pursuing in the course shall study in the college for the entire period as a full time student.
  - e. No candidate is permitted to work in a hospital/nursing home/laboratory/college while studying this course.
  - f. No candidate should join any other course of study or appear for any other examination conducted by this university or any other university in India or abroad during the period of registration.

#### **10. Clinical experience**

In order to provide hands on skills as part of the curriculum, the students will have to undergo clinical experience in the multispecialty medical college hospital as well as in the rural health centers attached to Yenepoya University.

#### **11. Conduct of university examinations**

The university examinations will be conducted at the end of each academic year.

#### **12. Internal exams**

- a. The internal exams refer to the final examinations conducted by the college for which university examinations will not be conducted for the subject on “Introduction to Nursing Research and Statistics”
- b. Obtaining Pass marks in this subject is compulsory.

#### **13. Internal Assessment Marks**

- a. Internal Assessment Marks (I.A) for theory is calculated based on the sessional examination model examination and Continuous Comprehensive Assessment (CCA) consisting of unit test, assignments, presentations, project work and group work etc.
- b. Internal Assessment Marks (I.A) for practical is calculated based on the model practical examinations and Continuous Comprehensive Assessment (CCA) consisting of clinical presentations and patient care assignments.
- c. A candidate shall secure at least 35% of marks in internal assessments to be eligible to appear in the university examination.

#### **14. Marks Qualifying for Pass**

- a. Minimum pass marks shall be 50% in each of the theory and practical papers separately.
- b. Minimum pass marks shall be 33% for English only
- c. A candidate has to pass in theory and practical exam separately in each of the paper.
- d. The theory component consists of marks obtained in University written paper(s) and internal assessment (theory). For a pass in theory, a candidate shall secure not less than 50% marks in aggregate i.e., marks obtained in written examination and internal assessment (theory) added together. For a pass in practical examination, a candidate, shall secure not less than 50% marks in aggregate i.e., marks obtained in university practical/ examination and internal assessment (practical) added together.
- e. A candidate not securing 50% marks in aggregate in theory or practical examination in a subject shall be declared to have failed in that subject and is required to appear for both theory and practical again in the subsequent examination in that subject.

- 
- f. Maximum of 5 grace marks for each subject is not permitted, and grace marks should not exceed 5 marks in total marks for one academic year in theory paper only.

### **15. Practical examination**

- a. All practical examinations are held in the respective clinical areas.
- b. The maximum number of candidates for practical examination may not exceed 20 per day.
- c. One internal and one external examiner appointed by the university will jointly conduct the practical examinations and viva-voce for each student.

### **16. Examiners**

- a. An examiner should be a lecturer or above in a college of nursing with M.Sc. (N) in the Concerned subject with minimum of 3 years of teaching experience.
- b. Nursing faculty will be the examiner for Nursing subjects as well as the Non-Nursing subjects such as Psychology, Biochemistry, Biophysics, Microbiology and Nutrition & Dietetics. However, non-nursing faculty with M.Sc. in respective subjects can be arranged as guest lecturers/external faculty/part time faculty for teaching.

### **17. Carryover of failed subjects**

- a. If a candidate failing in either theory or practical paper he/she has to re-appear for both the papers (Theory and Practical).
- b. The candidate if fail in more than one/two subjects in any nursing programme they can be promoted to next year. However all papers need to be cleared before appearing in the final examination (As per INC resolution: F.No.1-5/2014-INC dated 29.10.2014).
- c. The maximum period to complete the course successfully should not exceed 4 years

### **18. Revaluation / retotaling of answer papers**

Revaluation of answer papers is not permitted. Only re-totaling of theory answer papers is allowed in the failed subjects. Application for the same should be through the institution, within 10 days from the date of announcement of results.

### **19. Vacation**

The students will have declared vacation three times in an academic year

### **20. Withdrawal from the course**

#### **a. Temporary withdrawal**

A student can withdraw from the course for a maximum period of one year with valid evidence, due to sickness or any national calamity.

#### **b. Permanent withdrawal**

If a student intends to discontinue the course at any time after joining and attending classes, the student shall pay the college fees and dues as applicable for the remaining years of the course and obtain a no due certificate.

#### **c. Migration**

In case the candidate desires to migrate during the course, a no objection certificate would be provided from the university. This is applicable only in case of sickness/disaster/loss of parents

---

## 21. Membership in Trained Nurses Association of India

The student is eligible to be the member of trained nurses association of India if not registered earlier. The prescribed fee for membership to be paid as per the notification of Trained Nurses Associations of India..

## 22. Dress code

The students of the course have to follow the dress code prescribed by the institution for regular classes as well as during the clinical posting.

## 23. Health Services

- a. On admission, students will undergo a routine medical examination, and thereafter, annually
- b. Free medical care during illness and/provision of health insurance is available
- c. A complete health record is kept in respect of each individual student. The question of continuing the training of a student with long term chronic illness will be decided by the college
- d. Vaccination against Hepatitis B and other communicable disease is provided, as deemed necessary

## 24. Curbing the menace of ragging in the campus

- a. Ragging has been declared as a *criminal offence* by the Supreme Court of India Hence, any act of such kind within the campus is punishable by the law
- b. On admission, every student and his/her parents have to file an **affidavit** avowing not to indulge in ragging

## 25. Hostel facilities

Separate hostels are provided for men and women within the campus. All the rooms are well furnished and well equipped. The students are expected to stay in the hostels throughout the period of their study. The hostels have facilities to cater to both vegetarian & non-vegetarian students. The hostels are provided with basic amenities, mess, TV room, recreation room, basketball & volleyball courts, and visitors area. Each hostel is managed by a Chief Warden and two Assistant Wardens.

## 26. Library

Central Library contains a collection of updated new editions of books, journals and periodicals. For the benefit of students, the central library remains open from 9am to 12 midnight.

## 27. Extra-curricular activities

The management believes in the adage 'sound mind in a sound body' and realizes the importance of the need for cultural and sports activities for the students.

## NUTRITION AND DIETETICS

**Placement :** First Year

**Theory :** 30 hours

**Practical :** 15 hours

**Course Description :**

This course is designed to provide the students with a wide knowledge of dietetics in Indian setting, that the practice of teaching optimum and realistic dietary planning can become an integral part of nursing practice.

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	7	Explain the principles and practices of nutrition and dietetics	<b>Introduction to nutrition and dietetics</b> <ul style="list-style-type: none"> <li>• Balanced diet, factors on which it depends</li> <li>• Factors to be considered in planning</li> <li>• Guides available for planning</li> <li>• Food Hygiene, preparation and preservation</li> <li>• Laws regulating food hygiene                             <ul style="list-style-type: none"> <li>▪ Food adulteration act,</li> <li>▪ Drugs and cosmetic act</li> </ul> </li> <li>• Review of nutrients – micro &amp; macro</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion</li> </ul>	<ul style="list-style-type: none"> <li>• Essay type</li> <li>• Short answer</li> <li>• Objective type questions</li> </ul>
II	10	<ul style="list-style-type: none"> <li>• Plan therapeutic diets in different settings</li> </ul>	<b>Introduction to diet therapy</b> <ul style="list-style-type: none"> <li>• Routine hospital diets</li> <li>• Therapeutic diet under each unit                             <ul style="list-style-type: none"> <li>▪ Cardiovascular diseases</li> <li>▪ Gastrointestinal diseases</li> <li>▪ Renal disorders</li> <li>▪ Endocrine and metabolic disorders</li> <li>▪ Allergy</li> <li>▪ Infections and fevers</li> <li>▪ Pre and post operative stage</li> <li>▪ Deficiency diseases and malnutrition</li> <li>▪ Overweight and underweight</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion</li> <li>• Diet case study</li> </ul>	<ul style="list-style-type: none"> <li>• Exercise on menu planning</li> </ul>
III	6	Identify the nutritional needs of different age groups and plan diet accordingly	<b>Infant and child nutrition</b> <ul style="list-style-type: none"> <li>• Feeding of normal infants: factors to be considered in planning, nutritional requirements</li> <li>• Feeding of premature infants: factors to be considered in planning, nutritional requirements</li> <li>• Supplementary feeding of infants: Advantage and method of introduction</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion</li> <li>• Demonstration</li> </ul>	<ul style="list-style-type: none"> <li>• Essay type</li> <li>• Short answer</li> <li>• Objective type questions</li> </ul>

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
			<ul style="list-style-type: none"> <li>• Weaning effects on mother and child</li> <li>• Psychology of infant and child feeding.</li> <li>• Feeding the sick child, diet in diseases of infancy and childhood</li> <li>• Deficiency – malnutrition, under nutrition</li> <li>• Feeding pre-school child: factors to be considered in planning diets.</li> <li>• Problems in feeding</li> </ul>		
IV	7	<ul style="list-style-type: none"> <li>• Identify the need for community nutrition programme</li> </ul>	<p><b>Community nutrition</b></p> <ul style="list-style-type: none"> <li>• Need for community nutrition programme</li> <li>• Nutritional needs for special groups: infant, child adolescent, pregnant and lactating mother and old people</li> <li>• Substitutes for non-vegetarian foods.</li> <li>• Selection of cheap and nutritious foods</li> <li>• Nutrition education needs and methods</li> <li>• Methods of assessing nutritional status of individual/ group/ community</li> <li>• Current nutritional problems and national programmes</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion</li> <li>• Demonstration</li> </ul>	<ul style="list-style-type: none"> <li>• Essay type</li> <li>• Short answer</li> <li>• Objective type questions</li> </ul>

### **PRACTICUM (15 hrs) :**

- I. Preparation of different types of foods and simple beverages.
  - Clear liquids
  - Full liquids
  - Soft diets
- II. Planning low cost menu for different age groups.
- III. Planning of therapeutic diet.
- IV. Dietary case study of patient on special diet.

## BIOCHEMISTRY & BIOPHYSICS

**Placement :** First year

**Section A (Biochemistry) - Theory -30 hrs**

**Section B (Biophysics) - Theory -30 hrs**

### COURSE DESCRIPTION

This course introduces the basic principles of Biochemistry and Biophysics related to nursing.

### OBJECTIVES

At the end of the course, the student will,

1. identify the basic principles of Biochemistry
2. synthesize the knowledge of these principles in various nursing situations

### Section A: Biochemistry

**Theory -30 hrs**

### COURSE CONTENTS

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	2	<ul style="list-style-type: none"> <li>• Describe the structure</li> <li>• Composition and functions of cell</li> </ul>	<b>Introduction</b> <ul style="list-style-type: none"> <li>• Importance of biochemistry in nursing</li> <li>• Study of cell and its various components, functions</li> <li>• Various types of transport</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion using charts, slides</li> <li>• Demonstrate with the use of microscope</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer questions</li> <li>• Objective type questions</li> </ul>
II	4	<ul style="list-style-type: none"> <li>• Explain the fluid and electrolyte balance including buffer system of the body</li> </ul>	<b>Water and Electrolytes</b> <ul style="list-style-type: none"> <li>• Water- Sources, property &amp; functions in human body</li> <li>• Water and fluid balance.</li> <li>• Electrolytes of human body, functions, sources</li> <li>• Acid base balance</li> <li>• Buffer systems of the body</li> <li>• Role of lungs and kidneys in acid balance</li> <li>• Acid base imbalance</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• Objective type questions</li> </ul>
III	4	<ul style="list-style-type: none"> <li>• Explain enzymes and their mechanism of action</li> <li>• Explain digestion and absorption of carbohydrates, proteins and fats</li> </ul>	<b>Enzymes</b> <ul style="list-style-type: none"> <li>• Definition, Outline of Mechanism of action</li> <li>• List of factors affecting enzyme activities, Km value</li> <li>• Isoenzymes</li> <li>• Types of enzyme inhibitions with examples</li> <li>• Diagnostic applications</li> <li>• Precautions for handling specimens for enzyme estimation</li> <li>• Digestion and absorption of carbohydrates, proteins and fats</li> <li>• Various factors influencing the digestion and absorption malabsorption syndrome</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum discussion using charts, slides</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer questions</li> <li>• Long answer questions</li> <li>• Objective type.</li> </ul>

## PSYCHOLOGY

**Placement** - First Year

**Theory** – 60 hrs.

**Practical** - 15 hrs.

### COURSE DESCRIPTION

This course is designed to reorient and widen the student's knowledge of fundamentals of psychology. The student is offered an opportunity to apply the theoretical principles in the clinical setting and there by understand the psychodynamics of patient behaviour. This course would also help the student to develop an insight into her own behaviour.

### OBJECTIVES

At the end of the course, the student will be able to,

1. apply psychological principles while performing nursing duties
2. distinguish the psychological processes during health and sickness
3. analyse the behaviour patterns
4. tabulate the psychological needs of the patients for planning nursing care
5. participate in psychometric assessment of the client

### PRACTICUM

1. Simple experiments on (1) perception (2) measuring thresholds (3) Reaction time.
2. Administration of psychological tests
3. Observation and recording data
  - i. field observation
  - ii. interview
  - iii. Case study
  - iv. Self rating.

## MATERNAL NURSING

**Placement : First year**

**Theory-60 hrs**  
**Practical -240 hrs**

### COURSE DESCRIPTION

This course is designed to widen the student's knowledge of obstetrics during pregnancy, labour and puerperium. It also helps to acquire knowledge and develop skill in rendering optimum nursing care to a child bearing mother in a hospital or community and help in the management of common gynecological problems

### OBJECTIVES

At the end of the course, the student will,

1. describe the physiology of pregnancy, labour and puerperium
2. manage abnormal pregnancy, labour and puerperium
3. explain the physiology of lactation and advice on management of breast feeding
4. be skilled in providing pre and post operative nursing care in obstetric conditions
5. identify and manage high risk pregnancy including appropriate referrals
6. propagate the concept and motivate acceptance of family planning methods
7. teach, guide and supervise auxiliary midwifery personnel

### COURSE CONTENTS

## PRACTICUM

1. The students will,

- a. Be posted in antenatal clinic, MCH clinic, antenatal ward, labour room, postnatal ward, maternity OT, MTP room
- b. Visit welfare agencies for women and write observation report
- c. Follow nursing process in providing care to 3-6 patients
- d. Write at least two nursing care studies and do a presentation
- e. Give at least one planned health teaching to a group of mothers

2. Practice following nursing procedures

- a. Antenatal & postnatal examination, per vaginal exam
- b. Conduct normal delivery, stitching of episiotomy, (For male candidates minimum conduct of 5 deliveries)
- c. Motivation of family for adopting family planning methods
- d. Motivate family for planned parenthood
- e. Assist in various diagnostic and therapeutic procedures including IUD insertion and removal

## PRACTICUM

The student will

1. Be posted in paediatric medical and surgical ward, OPD in hospital and health centre, PICU and neonatal unit
2. Visit a centre for handicapped children and child welfare centre and write observation report
3. Write an observation study of normal children at various age groups in home/Nursery school/Crèche
4. Follow nursing process in providing care to 3-6 children.
5. Write at least two nursing care studies and do a presentation
6. Give two planned health teachings, one in hospital and one in OPD / health centre
7. Practice the following nursing procedure.
  - Taking paediatric history
  - Physical assessment of children
  - Baby bath
  - Feeding.
  - Restraining
  - Calculation of dosage of drugs and administration of medications and injections
  - Collection of specimens
  - Enema, bowel wash, colostomy irrigation
  - Steam and Oxygen inhalation
  - Preparation to assist with diagnostic test and operations
  - Examination/ assessment of a newborn
  - Neonatal resuscitation
  - Care of a baby in incubator and on ventilator
  - Photo therapy
  - Assist in exchange transfusion and other therapeutic procedures

## MICROBIOLOGY

**Placement :** First year

**Theory - 60 hrs**  
**Practical - 30 hrs**

### COURSE DESCRIPTION

This course reorients the student to the fundamentals of microbiology and its various sub- divisions. It provides opportunities to gain skill in handling and use of microscope for identifying the various micro-organisms. It also provides opportunities to safe handling of materials containing harmful bacteria and methods of destroying micro-organisms.

### OBJECTIVES

At the end of the course, the student will,

- (1) identify common disease producing micro-organisms
- (2) explain the basic principles of microbiology and their significance in health and disease.
- (3) demonstrate skill in handling specimens.
- (4) explain various methods of disinfections and sterilization.
- (5) identify the role of the nurse in hospital and infection control system.

---

## **UNIT - I**

### **Practical:**

Use and care of microscope

Common examination: blood smear, yeast, moulds.

## **UNIT – II**

### **Practical:**

Staining technique - gram staining, acid fast staining, and hanging drop preparation.

## **UNIT - III**

### **Practical:**

Preparation of media and culture technique

Collection, handling and transportation of various specimens.

## **UNIT - IV**

### **Practical:**

Sterilization methods - physical, chemical and mechanical.

## **UNIT - V**

### **Practical:**

Identification and study of the following bacteria - strepto-cocci, pneumococci, and staphylococci, coryne-bacteria, spirochetes and gonococci, enteric bacteria and unitary organisms, posting in infection control dept.

## **UNIT - VI**

## **UNIT - VII**

### **Practical**

Demonstration of serological methods

## **UNIT - VIII**

### **Practical**

Identification of parasites and Vectors

## **UNIT - IX**

## **UNIT - X**

## **UNIT - XI**

## **PRACTICUM**

Each student will practice in the laboratory twice a week for 2 hours a day. They will practice as indicated in each unit of the course outline. While giving nursing care in the ward they will practice collection and processing of specimens, prevention and control of hospital infections, sterilisation, immunisation, chemotherapy and maintenance of personal and environmental hygiene. Observational visit to incinerator, posting in C.S.S.D., infection control department and Biomedical waste management.

## MEDICAL SURGICAL NURSING

Placement - First year

Theory - 90 hrs

Practical - 270 hrs

### COURSE DESCRIPTION

The purpose of this course is to widen the student's knowledge and develop proficiency in caring for patients with medical surgical problems. This course includes review of relevant anatomy and physiology, pathophysiology in medical surgical disorders and the Nursing management of these conditions.

### COURSE CONTENTS

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods

## ENGLISH

Placement : First Year

Theory - 60hrs

### COURSE DESCRIPTION

This course is designed to help the student understand and usage of English language required for their professional work.

### OBJECTIVES

At the end of the course, the student will be able to :

1. ability to speak and write grammatically correct English
2. effective skill in reading and understanding the English language
3. skill in reporting

### COURSE CONTENTS

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	10	<ul style="list-style-type: none"><li>• Speak &amp; write grammatically correct English</li></ul>	<b>Remedial study of grammar</b> <ul style="list-style-type: none"><li>• Review of grammar, like Tenses, Prepositions, Verbs, Comparative and superlative adjectives, prepositions conjunctions and reported speech vocabulary and effective use of dictionary like Tenses, Prepositions, Verbs, Comparative and superlative adjectives, prepositions conjunctions and reported speech</li><li>• Prepare task oriented seminars</li><li>• Symposia and panel discussion</li></ul>	<ul style="list-style-type: none"><li>• Demonstrate use of grammar dictionary</li><li>• Exercise on use of grammar</li><li>• Organize the panel discussion</li></ul>	<ul style="list-style-type: none"><li>• Objective type</li><li>• Fill in the blanks</li></ul>
II	15	<ul style="list-style-type: none"><li>• Develop the ability to understand selected passage, express meaning &amp; omprehensive reading of the prescribed books</li></ul>	<ul style="list-style-type: none"><li>• The ability to understand selected passage and express meaning in one's own war.</li><li>• Reading and comprehension of the prescribed books.</li></ul>	<ul style="list-style-type: none"><li>• Demonstrate the use of reading and comprehension of the prescribed books</li></ul>	<ul style="list-style-type: none"><li>• Objective type</li><li>• Fill in the blanks</li></ul>
III	20	<ul style="list-style-type: none"><li>• Develop writing skills</li></ul>	<b>The study of various forms of composition</b> <ul style="list-style-type: none"><li>• Note taking</li><li>• Dairy</li><li>• Nurses notes, anecdotal records</li><li>• Writing of summary</li><li>• Nurses reports on health problems</li></ul>	<p>Exercise on</p> <ul style="list-style-type: none"><li>▪ Note making</li><li>▪ Nurses notes</li><li>▪ Anecdotal records</li><li>▪ Diary writing</li><li>▪ Reports on health problem</li></ul>	<ul style="list-style-type: none"><li>• Assessment of the skills based on the checklist.</li></ul>

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
			<ul style="list-style-type: none"> <li>The student will submit one sample of each item from her on practical experience</li> <li>News report writing</li> <li>Writing various formal letters</li> <li>Notice writing on various occasions and events</li> <li>Dialogue writing</li> <li>Reviewing the selected materials or books in one's ward</li> <li>E-mail writing</li> </ul>	<ul style="list-style-type: none"> <li>Discussion on summary writing, practical experience</li> </ul>	
IV	15	<ul style="list-style-type: none"> <li>Develop Writing &amp; listening skills</li> </ul>	<p><b>Verbal communication</b></p> <ul style="list-style-type: none"> <li>Oral reports</li> <li>Summarization of discussion</li> <li>Debate</li> <li>Listening</li> <li>Comprehension - Film Cassette and Radio</li> </ul> <p><b>Phonetics</b></p> <ul style="list-style-type: none"> <li>Learning British American Accent of the English Words</li> <li>Ability to Differentiate between the two</li> </ul>	Exercise on Listening to audio, video tapes and identify the key points, accent & information pattern	<ul style="list-style-type: none"> <li>Assessment of the skills based on the check-list.</li> </ul>

### PRACTICUM

The clinical experience in the wards and bed side nursing will provide opportunity for students to fulfill the objectives of learning language, Assignment on writing and conversation through participation in discussion, debates, seminars and symposia. The students will gain further skills in task oriented communication.

### Middle Level Health Provider (MLHP)

In continuation of notification No. 1-2/NEC/2019-INC dated 12<sup>th</sup> February, 2019. The total number of hours to incorporate in the existing Community Health Nursing subject is around 75 hours (theory + practical) in the P.B.B.Sc(N) in CHN

The following topics to be incorporated in the Community Health Nursing subject P.B.B.Sc nursing syllabus

---

## **Unit I (topics to be reviewed)**

1. Health planning and health care delivery system in India( IPHS guidelines)
2. Health management information system( HMIS)
3. Electronic medical records (EMR)
4. Micro birth planning
5. Adolescent counseling
6. Sources of vital statistics
7. Financial management, accounts and computing at sub center
8. Mental health act, drug de-addiction programmes
9. Time trends in disease occurrence in epidemiology
10. Infant and young child feeding and counseling
11. Nutrition across life cycle and update on national nutritional programme
12. Use of equipment
13. Throat problems and febrile seizure in children
14. Transportation of baby and common accidents and mishaps in labour room
15. Counseling –GATHER Approach
16. Update biomedical waste management by specifying biomedical waste management rules 2016
17. Suturing of superficial wounds
18. Postpartum intra Uterine Contraceptive Device(PPIUCD)
19. All the national health programmes on communicable, non communicable

## **Unit II**

1. Roles and responsibilities of Mid-Level Healthcare Provider(MLHP)
2. New national health programmes
3. AYUSHMAN BHARAT- The upgradation of sub-centers into of health and wellness centers, concept of compressive primary health care and key elements of CPHC, service delivery and continuum of care and roles of midlevel health care providers
4. Diagnosing and treatment skills essential at sub center level using standard treatment protocols asper national health programmes
5. Introduction to Rashtriya Bal Suraksha Karyakram (RBSK)
6. Social mobilization skills
7. Drug dispensing
8. Programme management including supervision and monitoring
9. Investigation of an out break
10. Behavior change communication and soft skills

- 
11. Integrated disease surveillance project (IDSP)
  12. Mother and child tracking system (MCTS)
  13. Chickungunya
  14. Organization of labour room
  15. Safe child birth checklist
  16. Postpartum visits by health workers
  17. Family planning 2020
  18. National family planning programmes
  19. Food born disease

### **PRACTICUM**

- Each student will prepare a community profile.
- The student will be allotted families for gaining experience in identifying family health needs, health counselling and guidance and family budgeting for optimum health.
- The students will participate in the activities of Primary Health Centre, Sub centre, MCH centre
- Visits will be made to selected health and welfare agencies, water purification plant and sewage disposal plant, infectious disease hospital.
- Conduct health education programmes for individual/group/community.

## MENTAL HEALTH NURSING

**Placement :** Second Year

**Theory :** 60 hrs.  
**Practical :** 240 hrs.

### COURSE DESCRIPTION

This course enables the students to recognise and appreciate the causes, symptoms and process of abnormal human behaviour. It also introduces the students to the present day treatment modalities in the light of psychological, social and cultural factors affecting human behaviour. This course helps the student to learn principles of mental health and psychiatric nursing and to develop beginning skills in the management of the mentally ill in hospital and community.

### OBJECTIVES

At the end of the course, student will :

- (1) identify and describe the philosophy and principles of mental health nursing.
- (2) describe the historical development of mental health and psychiatric nursing.
- (3) classify mental disorders.
- (4) develop skill in history taking and performing mental status examination.
- (5) describe etiological factors, psycho-pathology, clinical features, diagnostic criteria and treatment methods used for mental disorders.
- (6) manage the patients with various mental disorders.
- (7) communicate therapeutically with patients and their families.
- (8) identify role of the nurse in preventive psychiatry.
- (9) identify the legal aspects in practice of mental health and psychiatric nursing.

## INTRODUCTION TO NURSING EDUCATION

**Placement :** Second Year

**Theory** -60 hrs

**Practical** -75 hrs

### COURSE DESCRIPTION

This course introduces the students to principles and concepts of education, curriculum development and methods and media of teaching. It also describes the steps in curriculum development and implementation of educational programmes in nursing.

### OBJECTIVES

At the end of the course, the students will be able to

1. describe the philosophy and principles of education.
2. explain the teaching – learning process
3. develop the ability to teach, using various methods and media.
4. describe the process of assessment.
5. describe the administrative aspects of school of nursing
6. participate in planning and organizing an in-service education programme.
7. develop basic skill of counselling and guidance.

## PRACTICUM

- Observe the functioning of nursing administration at various level. i.e. institution, department, unit.
- Each students will practice ward management under supervision,
- Students prepare rotation plan of the staff, write reports, give verbal reports of the ward and assist in maintaining the inventory of the nursing unit.
- Visit to private and Govt. hospitals and write observation reports.

## INTRODUCTION TO NURSING RESEARCH AND STATISTICS

**Placement :** Second Year

**Theory** - 45 hrs.

**Practical** - 120 hrs.

### COURSE DESCRIPTION

The course is designed to assist the students to develop an understanding of basic concepts of research and statistics, use the findings of nursing research in nursing practice, apply the knowledge in conducting projects and solve problems related to nursing using scientific methods.

### OBJECTIVES

At the end of the course, the student will be able to,

1. define the terms and concepts of nursing research.
2. identify needs and scope of nursing research.
3. identify and define a research problem.
4. locate and list sources of literature for a specific study.
5. describe different research approaches, methods of data collection and sampling techniques with a special reference to survey method.
6. develop tool for data collection.
7. enumerate steps of data analysis and present data summary in tabular form.
8. use descriptive and correlational statistics in data analysis.
9. conduct a personal or group research project.

### COURSE CONTENTS

#### A. INTRODUCTION TO RESEARCH METHODOLOGY

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	5	<ul style="list-style-type: none"><li>• Define the terms and concepts of nursing research.</li></ul>	<b>Research and research process</b> <ul style="list-style-type: none"><li>• Steps of scientific methods</li><li>• Definition of research</li><li>• Need for nursing research</li><li>• Characteristics of good research</li><li>• Research Process</li><li>• Ethics in research</li></ul>	<ul style="list-style-type: none"><li>• Lecture cum discussion.</li><li>• Narrate steps of research process followed from examples of published studies.</li></ul>	<ul style="list-style-type: none"><li>• Short answer</li><li>• Objective Type</li><li>• Essay type</li></ul>
II	5	<ul style="list-style-type: none"><li>• Identify and define a research problem</li><li>• Locate and list sources of literature for a specific study</li></ul>	<b>Research problem and literature review</b> <ul style="list-style-type: none"><li>• Statement of research problem,</li><li>• Statement of purpose and objectives.</li><li>• Formulation of hypotheses</li><li>• Definition of research terms.</li><li>• Review of literature</li></ul>	<ul style="list-style-type: none"><li>• Lecture cum discussion.</li><li>• Exercise on writing statement of problem, objectives</li><li>• Reviewing one research report/ article</li><li>• Each student selects a research problem</li></ul>	<ul style="list-style-type: none"><li>• Short answer</li><li>• Objective Type</li><li>• Proposal development</li></ul>

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
III	3	<ul style="list-style-type: none"> <li>Describe the research approaches and designs</li> </ul>	<b>Research approaches and designs</b> <ul style="list-style-type: none"> <li>Research approaches : historical, survey and experimental.</li> <li>Qualitative and quantitative designs</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Explain types of research approaches used from examples of published and unpublished research studies with rationale</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> <li>Essay type</li> </ul>
IV	8	<ul style="list-style-type: none"> <li>Explain the sampling process</li> <li>Describe the methods of data collection</li> <li>Developing and standardizing an instrument</li> </ul>	<b>Sampling and data collection</b> <ul style="list-style-type: none"> <li>Sampling</li> <li>Sampling techniques and methods of data collection.</li> <li>Instruments; questionnaire, interview,</li> <li>Observation schedule, records, measurements.</li> <li>Reliability and validity of instruments.</li> <li>Pilot study</li> <li>Data collection procedure</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Prepare the tool in respect to the selected research problem.</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> <li>Essay type</li> </ul>
V	3	<ul style="list-style-type: none"> <li>Enumerate steps of data analysis and present data summary in tabular form</li> </ul>	<b>Analysis of data</b> <ul style="list-style-type: none"> <li>Tabulation,</li> <li>Classification and summarization,</li> <li>Presentation,</li> <li>Interpretation of data</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Preparation of sample tables</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> <li>Essay type</li> </ul>
VI	3	<ul style="list-style-type: none"> <li>Describe the methods of communicating research findings.</li> </ul>	<b>Communication of research findings</b> <ul style="list-style-type: none"> <li>Writing Report <ul style="list-style-type: none"> <li>Organizing materials for writing</li> <li>Format of the report</li> <li>Use of computers.</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Writing group research project &amp; presentation</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> <li>Assessment of group research Project</li> </ul>

## B. INTRODUCTON TO STATISTICS

Unit	Hours	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
VII	10	<ul style="list-style-type: none"> <li>Explain the use of statistics, scales of measurement and graphical presentation of data</li> </ul>	<b>Descriptive statistics</b> <ul style="list-style-type: none"> <li>Definition, uses of statistics</li> <li>Scales of Measurement</li> <li>Frequency Distribution and graphical presentation of data</li> <li>Measures of central tendency - mean, median and mode</li> <li>Measures of variability : range, standard deviation,</li> <li>Introduction to normal probability</li> <li>Inferential Statistics</li> <li>Chi square</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Practice on graphical Presentations</li> <li>Practice on computation of measures of central tendency, variability</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> </ul>
VIII	3	<ul style="list-style-type: none"> <li>Describe the methods of correlation</li> </ul>	<b>Correlation</b> <ul style="list-style-type: none"> <li>Computation by rank difference methods</li> <li>Uses of correlation co-efficient.</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Practice on computation of correlation</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> </ul>
IX	2	<ul style="list-style-type: none"> <li>Discuss biostatistics</li> </ul>	<b>Biostatistics</b> <ul style="list-style-type: none"> <li>Crude rates and standardized rates, ratio and estimation of the trends</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> </ul>
X	3	<ul style="list-style-type: none"> <li>Describe the use of computers in nursing</li> </ul>	<b>Introduction to computers in nursing</b> <ul style="list-style-type: none"> <li>Introduction to computer &amp; disk- operating system</li> <li>Introduction to word processing</li> <li>Introduction to data base</li> <li>Windows applications, word, excel, power point, multimedia</li> <li>Use of statistical packages</li> <li>Introduction to internet &amp; use of electronic mail</li> <li>Computer aided teaching &amp; testing</li> </ul>	<ul style="list-style-type: none"> <li>Lecture cum discussion.</li> <li>Practice on computers using data base, windows and statistical packages</li> </ul>	<ul style="list-style-type: none"> <li>Short answer</li> <li>Objective type</li> </ul>

### PRACTICUM

Students will conduct research project in small groups in selected areas of nursing and submit report. (Group studies include studying of existing health practices, improved practices of nursing (procedures), health records, patient records and survey of nursing literature).
