Ref: No. Y/REG/ACA/38-ACM/2020

14.05.2020

NOTIFICATION – 38-ACM/13/2020 dtd. 14.05.2020

Sub: Revision in the syllabus of Paper-I, Research Methodology
for Pre-Ph.D course work

Ref: Resolution of the Academic council at its 38th meeting held on
27.04.2020, vide agenda - 24

The Academic Council at its 38th meeting held on 27.04.2020 and subsequently the Board of Management at its 49th meeting held on 30.04.2020 have resolved to approve the proposal for revision in the syllabus of Paper-I, Research Methodology for Pre Ph.D course work for all faculties:-

1. Faculty of Medicine
2. Faculty of Dentistry
3. Faculty of Nursing
4. Faculty of Allied Health and Basic Sciences
5. Faculty of Pharmacy
6. Faculty of Arts, Science, Commerce And Management
7. Faculty of Ayurveda
8. Faculty of Homeopathy

RESEARCH METHODOLOGY

NOTE: The content given by UGC is Unit 3 and in bold

Total hours : 30 hours

Credits : 2

Unit 1. Introduction to Research: General

(8 hours)

- ❖ Definition, significance of research & importance
- ❖ Kinds and purposes of Research: Diagnostic, Descriptive, Exploratory, Explanatory
- ❖ Research approaches
- ❖ Criteria of good research
- ❖ Research process : components
- ❖ Types of Research: Quantitative, qualitative, basic and applied

General Topics

- ❖ Guidelines for Research ICMR, WHO, Nursing
- ❖ Research Ethics – Animal ethics; Human ethics
- ❖ Biosafety : Good Lab Practices,

Unit 2. Literature survey; Proposal writing

(4 hours)

- ❖ Types of Literature search – use of library, books & journals – Medlines, internet, getting patents and article reprints as a source of literature survey
- ❖ Review of Literature– Identification and selection of research problems, formulation of Hypothesis
- ❖ Preparation of research proposal, synopsis.
- ❖ Research Proposal for grants - components
- ❖ IPR and patents

Unit 3. Research and Publication Ethics (RPE)

RPE 01: Philosophy and ethics

(2 hours)

- ❖ **Introduction to philosophy: definition, nature and scope, concept, branches**
- ❖ **Ethics: definition, moral philosophy, nature of moral judgements and reactions**

RPE 02: Scientific Conduct

(4 hours)

- ❖ **Ethics with respect to science and research**
- ❖ **Intellectual honesty and research integrity**
- ❖ **Scientific misconducts: Falsification, Fabrication and Plagiarism (FFP)**
- ❖ **Redundant publications: duplicate and overlapping publications, salami slicing**
- ❖ **Selective reporting and misrepresentation of data**

RPE 03: Publication Ethics

(3 hours)

- ❖ **Publication ethics: definition, introduction and importance**
- ❖ **Best practices/standards setting initiatives and guidelines: COPE, WAME, etc.**
- ❖ **Conflicts of interest**
- ❖ **Publication misconduct: definition, concept, problems that lead to unethical**

behaviour and vice versa, types

- ❖ **Violation of publication ethics, authorship and contributionship**
- ❖ **Identification of publication misconduct, complaints and appeals**
- ❖ **Predatory publishers and journals**

RPE 04: Open Access publishing (3 hours)

- ❖ **Open access publications and initiatives**
- ❖ **SHERPA/RoMEO online resource to check publisher copyright & self - archiving policies**
- ❖ **Software tool to identify predatory publications developed by SPPU**
- ❖ **Journal finder/journal suggestion tools viz. JANE, Elsevier Journal Finder, Springer Journal Suggester, etc.**

RPE 05: Publication Misconduct (4 hours)

A. Group discussions

- ❖ **Subject specific ethical issues, FFP, authorship**
- ❖ **Conflicts of interest**
- ❖ **Complaints and appeals: examples and fraud from India and abroad**

B. Software tools

Use of plagiarism software like Turnitin, urkund and other open source software tools

RPE 06: Databases and Research Metrics (3 hours)

A. Databases

- **Indexing databases**
- **Citation databases: Web of Science, Scopus, etc.**

B. Research Metrics

- **Impact factor of journal as per Journal Citation Report, SNIP, SJR, IPP, Cite Score**
- **Metrics: h-index, g index, i10 index, altmetrics**

Ph.D. Course Work

Syllabus Biostatistics

=====

Unit 1. Basic concepts and descriptive statistics: (6 hours)

- **Lecture -1:** Definition of statistics & biostatistics, population and sample, parameter and statistics; variables – different types, scales of measurement
- **Lecture -2:** Types of data: qualitative and quantitative; tabulation of data - one-way and two-way tables, frequency table; visualization of data – diagrams and graphs
- **Lecture -3:** Measures of central tendency : Mean, median,
- **Lecture -4:** mode; partition values – quartiles, percentiles
- **Lecture -5:** Measures of variability: Range, inter-quartile range, standard deviation, mean deviation and coefficient of variation.
- **Lecture -6:** Measures of skewness and kurtosis; Box plot and its application

Unit 2. Sampling techniques and Probability distributions (8 hours)

- **Lecture -7 :** Notion of a random variable, probability and probability distribution
- **Lecture -8 :** Normal probability distribution , properties of normal probability curve, applications of normality, divergence from normality, checking normality
- **Lecture -9:** Sampling techniques: random sampling- simple random, stratified sampling , systematic sampling,
- **Lecture 10 :** Cluster sampling; non random sampling, sample size determination

Unit 3. Testing of hypothesis (10 hours)

- **Lecture -10:** Estimation of population parameters, standard error
- **Lecture -11:** Principles of hypothesis testing: Null and alternate hypothesis, type-I and type -II error, power of the test, test statistic, p - value.
- **Lecture -12:** Parametric tests: Z test, t-test, F-test: applications of these tests
- **Lecture -13:** One way ANOVA , repeated measures ANOVA
- **Lecture -14:** Non-Parametric tests : Chi-Square test, Mann- Whitney test, Wilcoxon Sign rank test, Kruskal - Wallis test.

Unit 4: Correlation & Regression Techniques: (08 hours)

Lecture -15:Correlation: scatter diagram, types of correlation

Karl Pearson's Product Moment Correlation Coefficient (r)

Spearman's Rank-order Correlation Coefficient (rho)

Lecture -16Linear regression analysis, Introduction to logistic regression

Diagnostic tests & reliability tests

- **Lecture -19:**Sensitivity, Specificity, Positive predictive value, Negative predictive value, False positive rate, False negative rate, Odds ratio.
- **Lecture -20:**Reliability & Validity, Measures of agreement: kappa statistics, intra- class correlation coefficient(ICC).

NOTE: Statistical software SPSS will be taught along with theory.

AGENDA

Sub: Proposed revision of the Pre-Phd Course Work - Syllabus for Research Methodology in accordance with the UGC Notification - Reg.

Ref: D.O.No.F.1-1/2018 (Journal/CARE) dated December 2019

The syllabus for the Research methodology is revised as per the UGC notification (ref.)

PRE-PHD COURSE WORK - SYLLABUS FOR RESEARCH METHODOLOGY

Total hours : 30 hours

Credits : 2

Sl. No.	Present Syllabus	Proposed revision	Change in the syllabus

Registrar
Yenepoya (Deemed to be University)

Pre-PhD coursework

SCHEME OF PH.D. COURSE WORK, EXAMINATION, EVALUATION AND DECLARATION OF RESULTS (CLAUSE NO. 07)

1. The scheme for PhD Course Work Examination to be conducted by the University shall be as follows:
 - a) Two written papers (I and II) each of three hours duration and each carrying maximum of 100 marks and
 - b) Paper III involving review of Literature and Planning and presentation of the synopsis of the Proposed Research Work with a Tentative Title (200 marks)

Papers	Particulars	No. of Credits	Marks
Paper 1	Research Methodology and Biostatistics	4	100
Paper 2	Theoretical Foundations	4	100
Paper 3	Reviewing of Literature and Planning of the Proposed Research Work with a Tentative Title	4	200
	Total	12	400

Ph.D. Course Work Examination

The scheme of marks

Papers	Particulars	No. of Credits	Maximum marks		
			Theory*	Internal assessment	Total
Paper 1	Research Methodology and Biostatistics	4	70	30	100
Paper 2	Theoretical Foundations	4	70	30	100
Paper 3	Reviewing of Literature and Planning of the Proposed Research Work with a Tentative Title	4	-	-	200
	Total	12	-	-	400

**Theory conducted out of 100 marks and brought down to 70*

Paper I Internal assessment calculation

Total marks : 30

Activity	No conducted	Maximum marks /each	Brought down
1. Internal assessment examination	Two	60	20
2. Journal club	Two	50	10
3. Class tests / Class activity	Nine	30	
4. Assignments	Ten	10	
5. Presentation of an E-Poster	One	50	
6. Review article (review of literature)	One	100	
7. Review of "Research	Once	100	

proposal for funding agency”			
8. Presentation of the review of literature	Once	10	

Ph.D. Course Work Examination

Ph.D. Course Work Examination will be conducted at the end of the course work as follows

Dates of the Pre-Ph.D. examination shall be notified by the Controller of Examinations

PAPERS FOR THE EXAMINATION :

Paper I	Research Methodology & Biostatistics	duration : 3 hrs	Marks 100
Paper II	Theoretical Foundations	duration : 3 hrs	Marks 100
Paper III	Synopsis preparation and presentation		Marks 200

PATTERN OF QUESTION PAPER I :

Paper I Research Methodology (60 marks)

- MCQ 15 No.'s X 1 mark
- Short essay : 5 No.'s X 5 marks
- Long Essay : 2 No.'s X 10 marks

Biostatistics (40 marks)

- MCQ : 10 No.'s × 1 mark
- Short essay : 4 No.'s × 5 marks
- Long Essay : 1 No.'s × 10 marks

Panel of Examiners for Paper I :

Internal Examiner (1) Appointed from Yenepoya (Deemed to be University)

External Examiner (1) Appointed from other Universities

PAPER II:

Pattern of Paper II : Subject related to the field of research (100 marks)

Long Essays : 5 No.'s × 20 marks

Classification of Successful Candidates:

The results of successful candidates at the end of the course work shall be classified on the basis of the Grade Point Average (GPA) obtained in all the papers. The Grade Point (GP) in a paper and the Grade Point Average (GPA) at the end of the course work shall be computed as follows:

The grade points (GP) in a paper shall be assigned on the basis of actual marks scored in that course as per the table below:

% Marks	Less than 55	55	56<60	61<65	66<70	71<75	76<80	81<85	86<90	91<95	96<100
Grade Points	Fails	5.5	6	6.5	7	7.5	8	8.5	9	9.5	10

The Grade Point Weights (GPW) shall then be calculated as the product of the grade points earned in the paper and the credits for the paper. The total GPW for a course is obtained by adding the GPW of all the papers.

The GPA shall then be computed by dividing the total GPW of all the papers of study by the total credits for the course.

A Ph.D. scholar has to obtain a minimum of 55% of marks or its equivalent GPA of 5.5, in the UGC 7 - point scale in the course work in order to be eligible to continue in the programme and submit the dissertation/thesis.

In case the candidate is not successful in the Ph.D. Course Work Examination in the first attempt, he/she may be given one more chance to appear for the paper in which the candidate has failed anytime when the next the examination is scheduled on payment of the requisite fees of Rs. 500/-. If the candidate is not successful in the PhD Course Work Examination, even in the second appearance, his/her provisional registration shall stand cancelled. Registration of the candidate will be confirmed only after they pass the Ph.D. Course Work Examination.
