Vestibular disorders include peripheral conditions like BPPV, Meniere's disease, cochlear otosclerosis etc and various central nervous system complex conditions.</li> <li>2. There is gross disparity in the qualifications of learners varying between B.Sc. Audiology, BPT to DM</li> <li>3. No mention of which branch or specialty of MS and DM would be eligible amongst the medical faculty.</li> <li>4. A course should have learners with similar qualifications so that the trainer will adapt appropriate teaching learning methods and assessment for the learners.</li> <li>5. Course of 5-7 days may not be able to achieve desired objectives of such complex conditions and with such disparity in learner's qualification and competence.</li> <li>6. List of books suggested should be in Vancouver format.</li> <li>7. The department may consider having two courses: <ol style="list-style-type: none"> <li>a) One exclusively for medical personnel with MS in ENT or MD in Medicine (or equivalent) with experience in vestibular disorders or a candidate with super speciality degree DM in Neurology:</li> <li>b) Second for technicians with few years of experience in vestibular or related field</li> </ol> </li> </ol>
