1. PREAMBLE

A beautiful smile is desired by everyone. The ability to smile confidently enhances an individual's personality. But not everybody can smile without apprehension. Esthetic dentistry has become an essential skill for a successful dental practice in the modern world. The key to success lies in one's ability to visualize the final outcome of the procedure before initiating treatment. The focus of this course is to provide a bird's eye view into the world of esthetic dentistry and give basic skill training.

2. COURSE OBJECTIVES

- To provide the participants a thorough systematic and logical exposure to aesthetic dentistry.
- To help the participants to effectively incorporate esthetic dentistry into their dental practice.
- Rational creation of overall treatment plans in relation to esthetic dentistry.
- To provide a program based on realities of private practice and not just theoretical aspects.
