Family Adoption Scheme

Brief Summary: A cluster of students (MBBS and BDS students) visited the families adopted by them and conducted various assessment like understanding family composition, type of family, antenatal and postnatal visits by pregnant women, vaccination status of children, assessing surrounding environment of the house, measures taken to control vectors, method of waste disposal, Source of water supply, mode of sullage and type of household latrine and bathroom, health seeking behaviour, oral and personal hygiene practices, major morbidity in family like diabetes, hypertension, tuberculosis, understanding needs and health and diseases influencing factors in the family. Students made their allotted families understand the correct way of practicing to improve and promote the above mentioned factors. This programme will develop trust worthy and long- lasting relationship with the families and students which will facilitate health seeking behaviour and promote health and prevent diseases. The students will develop better communication and social skills for family oriented health care training and adopting that particular family.
