## Details of the Collaborative Activity

2018-19

**Name of the Collaborating Institute:** Aurigene Discovery Technologies Ltd, Bengaluru

**Name of Collaborating Department:** Yenepoya Research Center.

### Activities:

A MoU was signed between Aurigene Discovery Technologies Ltd, Bengaluru and Yenepoya for joint research activities, sharing facilities in the year 2019

- An invited talk at Aurigene by Dr. Keshava Prasad, YRC - 2018
- Aurigene team visited Yenepoya (Deemed to be University) for a workshop conducted by YRC on Proteomics.
- Consultancy to Aurigene Discovery Technologies Ltd on Proteomics was provided by YRC
- YRC offered Training on Proteomics to Mr. Vijay Shankar and Mr. Sunil Kumar Panigrahi from Aurigene Discovery Technologies Ltd
- Aurigene Discovery Technologies Ltd has extended its support for providing industry internship support for P.G. Diploma in Multiomics Program (BiSEP)

Dear Prof.Keshava Prasad,

Thank you very much for visiting Aurigene, introducing us to the various proteomic work you are carrying out and discussing potential collaboration possibilities. Since you could spend more time than initially planned, we could get a good understanding of the proteomic area which is new to us. Once you send us the documents for collaboration we will complete the formalities and hopefully we can start some work soon.

Best Regards

Thomas

This agreement is entered into on this day the 11<sup>th</sup> in the month of April in the year two thousand and nineteen between

**Center for Systems Biology and Molecular Medicine**, Yenepoya Research Center, Yenepoya (Deemed to be University), Deralakatte, Mangalore 575 018, Karnataka, India (hereinafter called 'CSBMM')

AND

**Aurigene Discovery Technologies Limited**, 39-40, KIADB Industrial Area, Hosur Road, Electronic City Phase II, Bengaluru, Karnataka 560100 (hereinafter called 'Aurigene')

**WHEREAS CSBMM** is an academic research center at Yenepoya (Deemed to be University), which is being administered through Yenepoya Research Center, engaged in the genomic, proteomic and metabolomic approaches to investigate biological systems including model organisms such as yeast, worm, fly, mouse to human. CSBMM is also a specialized center for mass spectrometry-based proteomics, phosphoproteomics and metabolomics services. CSBMM faculties provide consultancies in the area of genomic, proteomic and metabolomic analysis.

**WHEREAS Aurigene** is a Drug Discovery Services company committed to the vision of being the most respected and valued scientific collaborator in India. Based in Bangalore, Hyderabad and Kuala Lumpur, Aurigene has fully integrated Drug Discovery infrastructure from Hit Generation to Pre-clinical development. Aurigene has pioneered customized models of Drug Discovery collaborations with large-pharmaceutical, mid-pharmaceutical companies and Biotechs. In over 12 years of working with Pharma, Biotech and Academic partners, in a variety of Therapeutic Areas, and over 75 integrated Drug Discovery projects, Aurigene has contributed to delivering over 15 small molecule- and peptide- drug candidates to its biotech and pharmaceutical partners.

Both the above parties held discussions at various times to enter into an agreement related to matters of mutual interest and decided to deduce their respective roles and points of agreement jointly hereunder:

**The following are the conditions of the MOU**

1. CSBMM faculties provide consultancies for designing specific proteomic and metabolomics works for Aurigene. CSBMM will also provide services for mass spectrometry-based projects. Appropriate consultancy and service fees will be charged.
2. Aurigene will design the study in consultation with CSBMM Faculty, and CSBMM will prepare a quotation for service. Aurigene will then provide purchase order along with 50% advanced payment. Rest of the payment will be made after the data acquisition and analysis
3. Dr. Keshava Prasad and other scientists assigned by the Center will represent the CSBMM, and Dr. Thomas Antony and other scientists will represent Aurigene. They will supervise the above-mentioned service projects.
4. **Material.** The name and amount of the material being transferred to CSBMM are: Cell lysates.
5. **Research Plan.** The Material will be used by CSBMM in scientific research/evaluation as outlined in the attached Exhibit A (the "Research Plan").
6. **Use of the Material.** The Material shall not be used on human subjects. The Material will be used for no purpose other than described in the Research Plan and in compliance with applicable local laws.
7. **Confidential Information.** For purposes of this Agreement, the term "Confidential Information" shall mean the following: Any information, matter, intellectual property or thing of a secret, confidential or private nature connected with the business of individual Party, as the case may be, or any of their suppliers or customers, including but not limited to, with respect to individual party's patented and unpatented inventions, trade secrets, drawings, know-how, techniques, product plans, designs, software, hardware, data, financial information source and object code, formulae and concepts not reduced to material form, but excludes such information, as was in the public domain prior to such disclosure.
8. **Disclosing Party.** "Disclosing Party" means a Party that discloses Confidential Information under this Agreement. **Receiving Party.** "Receiving Party" means a Party that receives Confidential Information under this Agreement.
9. The Parties agree that any Confidential Information disclosed by any "Party" in accordance with the agreement and related to the Purpose shall be maintained in secrecy
