

YENEPOYA

(DEEMED TO BE UNIVERSITY)

Recognized under Sec 3(A) of the UGC Act 1956

Accredited by NAAC with 'A' Grade

Details of the Collaborative Activity

2019-20

Name of the Collaborating Institute: Jamia Millia Islamia (A Central University), New Delhi

Name of the Collaborating Department: Department of Oral and Maxillofacial Surgery, Yenepoya Dental College (YDU) and Yenepoya Research Center

Activities:

Joint Research and Publications:

A Collaborative research project was formulated by Dr. Akther Husain, Dept. of Orthodontics and Dr. H Hari Kishore Bhat, Center for Craniofacial Anomalies, YDC with Dr. Deborah Sybil, Jamia Millia Islamia (A Central University), New Delhi

Title: Cleft care India Study (A project under SPARC) with title "Evaluation of cleft care outcomes of non-syndromic unilateral cleft lip and palate (UCLP) patients at ages 5, 12 and 20 across India: The Cleft Care India Study".

This study is funded by the Ministry of Human Resource Development, Government of India to Jamia Millia Islamia, New Delhi (A Central University) under the Scheme for Promotion of Scientific and Research Collaboration (SPARC).

Student Internship training:

- Mr. Mohammed Hanzala K, B.Sc Bioscience student from Jamia Millia, New Delhi completed a short-term training at Yenepoya Research Centre from 10th Jan to 27th Jan 2018 on topic "Preparation of Zinc nanoparticles and evaluation of toxicity using prokaryotic and eukaryotic systems".
- Mr. Shameerudeen, B.Sc Bioscience student from Jamia Millia, New Delhi completed a short-term training at Yenepoya Research Centre from 20th Jan to 28th July 2018 on topic 'Identification of long non coding RNAs involved in atherosclerosis by comparative transcriptomic analysis'.

CLEFT CARE INDIA STUDY

A Project Under SPARC

Dear Dr. Akhter,

We are pleased to extend collaboration to the Center for Craniofacial Anomalies, Yenepoya for the project titled "Evaluation of cleft care outcomes of non-syndromic unilateral cleft lip and palate (UCLP) patients at ages 5, 12 and 20 across India: The Cleft Care India Study".

This project has been sanctioned by Ministry of Human Resource Development, Government of India to Jamia Millia Islamia, New Delhi (A Central University) under the Scheme for Promotion of Scientific and Research Collaboration (SPARC). This project has international collaboration with University of Manchester, which was the prime center for development and monitoring of Cleft care UK project all over Europe. The project will involve assessment of cleft patients for different outcomes like skeletal and dental arch relationship, speech, hearing, oral health and quality of life, which would help us address the lacunae in the current standard of care, identify and eliminate unsafe and unsuccessful practices in India and thus frame robust strategies for comprehensive cleft care.

This collaboration would require sharing of patient data from your centers, which will be kept confidential, and would be used only to reach the objectives of the study. At the end of this project we would publish our recommendations in a monograph for submission to the MHRD and all the collaborating centers will be duly acknowledged in it. We will coordinate with Dr. H.Hari Kishore Bhat for the same.

We thank Dr. H.Hari Kishore Bhat, you and center for craniofacial anomalies for being the collaborative partner for this study. Looking forward to working in collaboration.

Warm Regards,

Dr. Panchali Batra

Principal Investigator, Cleft Care India Study

Dear Sir,

This is to certify that **Mr. Mohammed Hanzala K** is a bonafide student of B.Sc. Biosciences (Semester III). He wants to do internship/training/project in your reputed Institution during the winter vacations. He is very hard working and has the right aptitude for research. It is requested to allow him to carry out internship in your organization.

With kind regards,

Yours sincerely

(Dr. Mohammad Abid)
Assistant Professor
Department of Biosciences

CERTIFICATE

This is to certify that, Mr. Mohammed Hanzala K, BSc. Biosciences, Jamia Millia Islamia, New Delhi has undergone a short term training at Yenepoya Research Centre, Yenepoya University, Mangalore from 10th January 2018 to 27th January 2018.

During this tenure, he was trained in the basics of nanoparticle synthesis, characterization and their biological activity, basics of cell culture, RNA and protein extraction and its quantification, SDS and western blot techniques. He has also undertaken a short project on Preparation of Zinc nanoparticles and evaluation of its toxicity using Prokaryotic and Eukaryote systems.

Recommendation Letter

I am happy to recommend Mr. Mohammed Hanzala K, B.Sc Biosciences, Jamia Millia Islamia, New Delhi, I know him as short term research trainee in my institute Yenepoya Research Centre, Yenepoya (Deemed to be University), Mangalore from 10th January 2018 to 27th January 2018. During this tenure, he was trained in the basics of nanoparticle synthesis, characterization and their biological activity, basics of cell culture, RNA and protein extraction and its quantification, SDS and western blot techniques. He has also undertaken a short project on Preparation of Zinc nanoparticles and evaluation of its toxicity using Prokaryotic and Eukaryote systems.

He is in constant touch with me on his progress. He is hard working, sincere and has commitment for work. He is a good team member and display good professional relationship with others in the team as well with others in the organization. I highly recommend him as a good candidate for works related in Life science sector.
