This MOU is signed on 9th July 2021

Yenepoya (Deemed to be University), University Road, Deralakatte, Mangaluru - 575018, represented by its Registrar, Dr. K.S. Gangadhara Somayaji, hereinafter called as the First Party.

AND

Ambuja Health Care Foundation (AHCF), #21, 1st Floor, Sindhura 5th Main, 6th Cross, Behind Balaji Kalayana Mantapam, BSK 3rd Stage, Bangalore - 560085, represented by its Chairman, Dr. K S Gopinath, hereinafter called as the Second Party.

Whereas, the first party is a deemed to be university accredited "A grade" by National Accreditation Assessment Council (NAAC) with Yenepoya Medical College being one of the constituent colleges, hereinafter called YMC, engaged in the treatment of patients, teaching, research and service.

Department of Community Medicine under YMC is an undergraduate and postgraduate training department involved in community-oriented training, research and service to the community. The department is also providing promotive, preventive and curative health services to the community through different tiers of health care delivery systems. It caters to the 1 lakh population. Department has been awarded with certificate of appreciation as "Department with research potential" by our Institute. Department has several extramural and intramural funded projects. Priority research areas include surveillance, operational research in tuberculosis, non-communicable diseases, and maternal-child health including adolescent health.

Department of Community Medicine will be the coordinating department from the first party.

Ambuja Health Care Foundation is a section 8 technology company, incorporated in November 2020. Its main focus is on prompting preventive healthcare by providing Healthcare Data Platform for NCD Screening that helps healthcare providers to digitalize health data and build an integrated, end-to-end healthcare solutions.

The Mission of Ambuja Health Care Foundation is to uniquely combine Technology, Innovation and Process Transformation to deliver affordable preventive healthcare solutions and services.

We achieve this Mission by developing affordable technology driven products and services, Conducting NCD and Cancer Screening Programs in rural and urban settings, Conducting Webinars for healthcare professionals, Collaborating with innovative

companies to provide affordable solutions, Collaborating with universities for R&D and Publications.

The broad scope of collaboration as our understanding is as follows, this can be modified time to time.

In order to develop electronic data capture tools, IT platforms and facilitate capacity building of public health professionals through research and service activities, Ambuja Health Care Foundation & Yenepoya Deemed to be University, Mangaluru, India agree to enter into a memorandum of understanding (MOU) on following articles within the extent of each Institutions regulations & facilities.

1. Development of electronic data capture tools
2. Development of IT platform for collection, compilation and analysis of digital data.
3. Explore the possibilities of research collaboration between the two institutions.
4. Provide technical support in software solutions.
5. Work collectively towards integrating and upgrading digital health technology solutions currently available with both parties
6. Capacity building of students, faculties, researchers and field staff in efficient and quality data capture.
7. To promote the development of training modules and course maternal by involving faculty/ researchers from two institutions.
8. Explore the possibility of developing and implementing software solutions for research and community service.
9. In case that research result impacting upon matters of intellectual property rights are expected to arise in the course of collaborative projects within the scope of this protocol, the parties shall enter into an additional protocol governing the conditions regarding the treatment of intellectual property rights specially arising, prior to the start of the collaborative project in question.
10. This protocol shall be in effect for three years following the date of signature. This protocol may be complemented or amended by the written and common consent of authorized representatives of both institutions and additional protocols to this protocol. The addenda or amendments will not be valid unless it is written and signed. The protocol may be extended for another two years by written and signed consent of the parties.

Paediatrics and OBG, nursing aid and a laboratory technician conducted the camp. The doctors examined and treated the beneficiaries. Laboratory investigations like random blood sugar and rapid test for COVID-19 were conducted. Most of the beneficiaries were children followed by adults who came for hypertension and diabetes mellitus screening. Anthropometric measurements like height and weight were carried out for all the children beneficiaries by the Anganwadi Worker and the helper. Drugs like analgesics, antipyretics, H2 blockers, and anti-hypertensives were dispensed. Beneficiaries who needed referral, were given a referral slip and advised to take further treatment in the higher center. The camp closed at 12.30 pm.

This was followed by observation of World Daughters Day by the Anganwadi Worker. Two girls who were former beneficiaries of the Anganwadi inaugurated the programme by lighting the lamp. The Anganwadi Worker spoke about the significance of the day. This was followed by a brief talk by Dr. Pracheth.
