## BMJ Research to Publication

This is an online research methodology and publishing program specifically designed for doctors and healthcare researchers to develop research skills and help to get papers published in high quality journals. It is a self directed online flexible learning program consisting of 8 courses, with 52 modules, for 200 hour with video lectures, narrated slides reading materials and assessments

## Uptodate-Evidence based Clinical Decision support resource

The Uptodate is an evidence based clinical resource useful for rapid consultation at the bedside for diagnosis, tests, interventions and patient care. It is a collection of medical and patient information, Frequently updated with links to relevant literature. The Evidence Based Clinical Decision support resource 'Uptodate' has been subscribed at Yenepoya (Deemed-to-be University) for clinicians, faculty and postgraduate students. Access is IP authenticated, hence available anywhere in the University campus. On registering in Uptodate website, the Clinicians, Faculty and postgraduate students can access this resource remotely from anywhere inside/outside the campus/at the bedside. The Link to website has also been provided in the E-Library remote access in the University website.

The screenshot displays the UpToDate website interface. At the top, there is a navigation bar with the UpToDate logo on the left and 'Yenepoya University' on the right. Below the logo, there are menu items: 'Contents', 'Calculators', 'Drug Interactions', and 'UpToDate Pathways'. On the right side of the navigation bar, there are 'Register' and 'Log In' buttons. The main content area features a search bar with the placeholder text 'Search UpToDate' and a magnifying glass icon. Below the search bar, there is a section titled 'COVID-19 Information' with a blue background. This section contains two links: 'COVID-19 Homepage' with the description 'A categorized collection of all UpToDate COVID-19 content', and 'COVID-19 Questions and Answers' with the description 'Answers to some of the most commonly asked questions by UpToDate users'. The bottom of the screenshot shows a Windows taskbar with various application icons and a system tray displaying the time as 9:41 PM on 09-11-21.

## ➤ Scopus:-Research Support Tools

## Swayam

The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology. Courses delivered through SWAYAM are available free of cost to the learners, however learners wanting a SWAYAM certificate should register for the final proctored exams that come at a fee and attend in-person at designated centres on specified dates. Eligibility for the certificate will be announced on the course page and learners will get certificates only if this criteria is matched. Universities/colleges approving credit transfer for these courses can use the marks/certificate obtained in these courses for the same.

# Web of Science

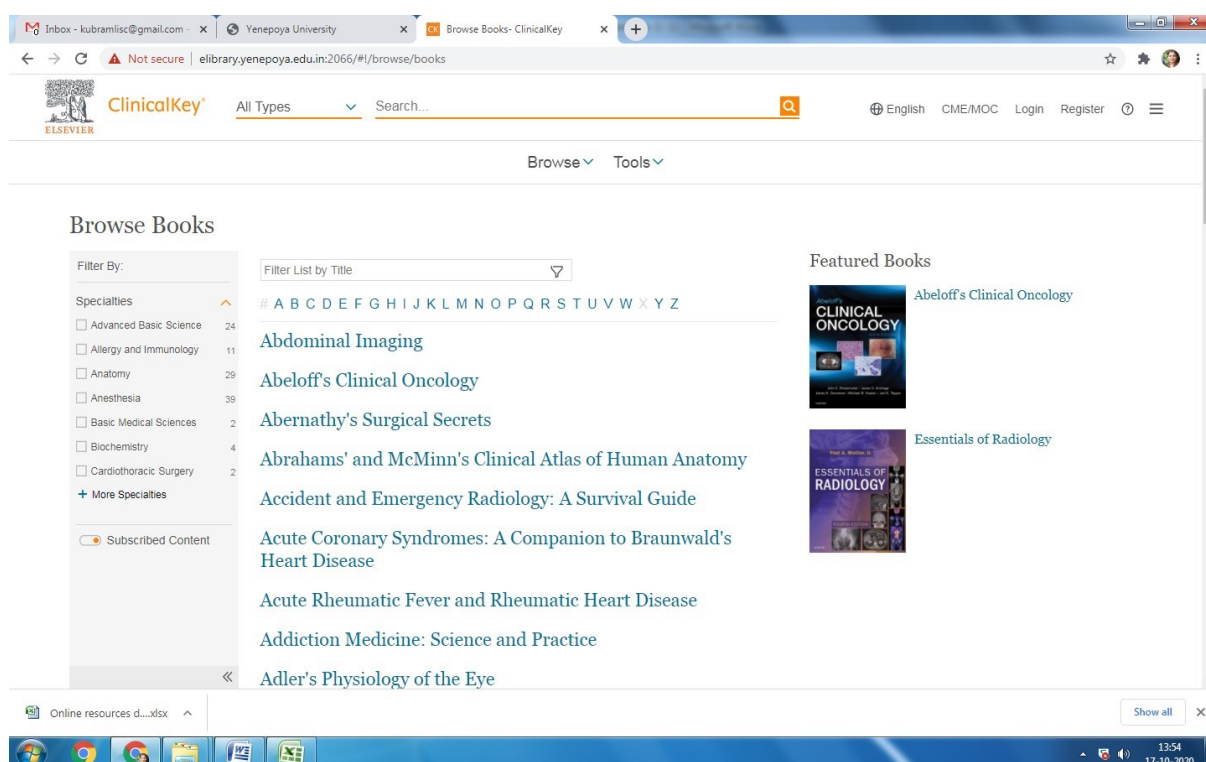

Web of Science provides subscription-based access to multiple databases that provide comprehensive citation data for many different academic disciplines. It was originally produced by the Institute for Scientific Information (ISI) and is currently maintained by Clarivate Analytics. The Web of Science provides a common search language, navigation environment and data structure allowing researchers to search broadly across disparate resources and use the citation connections inherent to the index to navigate to relevant research results and measure impact.
