Dear Ma'am

My first English class for MSc Ethics 'C' batch was conducted on Tuesday from 2.30 to 3.30pm. It was a quality time with 3 ardent course.

Initially, I spoke to them about our objectives of enhancing their English written and communicative skills & their roles and respons informed them about their exercises , written and verbal activities to improve both the skills.

The second part was of self introduction and the latter part was spent scrutinizing their basic written and communication skills via questionnaire and Speech relay. Their results varied from advanced to lower intermediate.

And eventually I could barely start with my class of verb tenses which will be resumed in today's class . I intend to ensure their co circumstances.

Thanks & Regards

Dear Ma'am

This week, my classes have been on Verb Tenses. Students learnt the sub types of tenses such as: Simple present tense, present continuous tense, present perfect & present perfect continuous tense along with examples. After the class, they were given exercises to solve. Students were excited to solve these grammatical exercises; hence insisted me to give them more practice in this regard next week.

However, I found one student (Bibina) lagging behind. She is reported to have some problems pertaining to English; accordingly, I have planned to pay extra attention to that particular student.

Thanks & Regards

Dear Ma'am

This week, my classes have been on exercises on different types of tenses incorporating 12 sub types of the same. I assigned them two topics instigating them to use all the sub divisions along with its recognition through highlights. They presented these topics very well availing all of these kinds, hence qualifying them in appropriate use of verb tenses besides aiding their written skills.

Moreover, I have been planning some extra classes for Bibina as she needs extra attention in basic English grammar.

Dear Ma'am

Today's class has been the compensation for last week's missed schedule. In accordance with my plans of last week, we started with preposition (preposition of time : with different uses of 'in' , 'in' , 'at' , 'in' time' , ' on time' , ' just in time' & their differences). It was much of an interactive class as students clarified many of their doubts with lots of examples.
