## THE YUAA JOB SHADOWING PROGRAM

The key internship type program for the interested students who are ready to put extra miles during their internship, every year students and the hospital partners will be invited to be part of the prestigious event.

The idea is to train the students for a practice ready and also to give an insight into the clinical set up.

The YUAA is exploring its efforts to strengthen the project to full scale all over India in years to come.

It was overall good experience during internship

Dentistry as defined is science and art of its specialities. When I investing my time before internship in learning the science part YUAA job shadowing programme aid3d me to Chanel my skills on the art part during my internship

It is an excellent introduction to clinical practice and understanding how different it is from the way we practice in college. Patient interactions, patient management, costing, dental material selection are few important things I learned by the program. I think all students should be given a chance to do this.
