

# Nature, an eternal bliss.

**Calida Royce D'Souza**  
Coordinator  
Yenepoya Personal Professional  
Development Centre

We live in a beautiful world  
Having the most wonderful times.  
Flowers and trees spring up happiness,  
Bushes and grass bring peace to the soul.  
Humans and animals walking with glee,  
Enjoying the fruits so yum and sugar free.  
Sun shines in a clear blue sky always ,  
Birds flying and the breeze so cool.  
Mother Nature has so much of beauty,  
Days and years won't be enough to praise.  
How could I forget the main aspects?  
The sea and lakes which makes our lives easy.  
Nature has answers to all our problems,  
Let us choose to protect and nurture it.  
This is how earth will be a true heaven
