VISIT TO BUTTERFLY PARK AND SOAN'S FARM

Yenviron Club

14 December 2022, The Yenviron Club of The Yenepoya Institute of Arts, Science, Commerce and Management had organized one day study visit to Sammilan Shetty's Butterfly Park and Soan's Farm to the students of the club. The study visit was focused to experiential learning wherein we got to see numerous species in natural habitats especially wide variety of butterflies belonging to the region. The park set up by nature enthusiast Sammilan Shetty, was not just exciting but also was a treat to eyes with its mesmerizing beauty and abundant learning experience Life Cycle of Butterfly. After that we visited another horticulture hotspot, Soans Farm. The place was simply beautiful filled with tasty and delicious pineapples, exotic plants and varied foreign fruits like mangoes, rambutans and cocoa. From walking around the orchards to the exclusive pineapple juice tasting, everyone thoroughly enjoyed their time at Soans Farm.

The objective of this study project was to gain the environmental awareness and to study the metamorphosis of Butterfly and numerous species.

Nearly 95 students were taken to study visit accompanied by Faculty Co-ordinator, Ms.Sharmila P Nayak, Mr. Niyaz P. The study visit started at sharp 9:30 a.m from college. The Students were assigned to prepare study report and create blogs on this study trip through attractive collection of photography and videos by different course streams. The Study visit came up with treasure of knowledge.
