

International Day for Biological Diversity 2018

Centre for Environmental Studies organized an awareness programme to prevent birds from migrating and providing water and shelter to birds in a programme organized by the Yenviron club on 14.05.2018. Mr. Nithyananda Shetty from Badyar, B. C. Road was the resource person. He has been designing mud pots for bird nests since many years. Mud containers for food and water were also set up in the University campus. Students participated by tying the pots designed for bird nests on trees and filling water in pots.

Setting of mud pots in the campus

International Day for Biological Diversity 2016

The 'International Day for Biological Diversity' was celebrated jointly by the Centre for Environmental Studies and Yenepoya Nursing College on May 26th 2016. 'NUTRIYEN' an exhibition on cereals and pulses was organized. Dr. M. Vijayakumar, Hon'ble Vice Chancellor, Yenepoya University inaugurated the exhibition. About 58 varieties of edible seeds were displayed along with their nutritive values. 20 varieties of exotic fruit species were also exhibited. The students from Nursing college displayed charts on nutritive value of seeds and demonstrated house hold testing of adulterants in common foods. Dr. C. V.
